To advance Executive Order 13929 Safe Policing for Safe Communities, the Attorney General determined that all state, local, and university or college law enforcement agencies must be certified by an approved independent credentialing body or have started the certification process to be eligible for FY 2022 DOJ discretionary grant funding. To become certified, the law enforcement agency must meet two mandatory conditions: (1) the agency's use-of-force policies adhere to all applicable federal, state, and local laws and (2) the agency's use-of-force policies prohibit chokeholds except in situations where use of deadly force is allowed by law. The certification requirement also applies to law enforcement agencies receiving DOJ discretionary grant funding through a subaward. For detailed information on this certification requirement, please visit <https://cops.usdoj.gov/SafePolicingEO> to access the Standards for Certification on Safe Policing for Safe Communities, the Implementation Fact Sheet, and the List of Designated Independent Credentialing Bodies.

All recipients and subrecipients (including any for-profit organization) must forgo any profit or management fee.

BJA will consider applications under which two or more entities would carry out the federal award; however, only one entity may be the applicant. Any others must be proposed as subrecipients (subgrantees). For additional information on subawards, see the [OJP Grant Application Resource Guide](#).

BJA may elect to fund applications submitted under this FY 2021 solicitation in future fiscal years, dependent on, among other considerations, the merit of the applications and on the availability of appropriations.

Program Description

Overview

OJP is committed to advancing work that promotes civil rights and racial equity, increases access to justice, supports crime victims and individuals impacted by the justice system, strengthens community safety and protects the public from crime and evolving threats, and builds trust between law enforcement and the community. The purpose of the Department of Justice (DOJ) Jails and Justice Support Center (the Center) is to assist jails in creating and sustaining safe, humane, and effective environments for people who are detained and incarcerated in them and for people who work in and visit them. The Center, which will be collaboratively administered by the Bureau of Justice Assistance and the National Institute of Corrections, will provide the nation's jails with information, resources, training, and technical assistance to improve compliance with all constitutional and federal statutory requirements and other relevant U.S. law, regulations, standards, best practices, and guidelines.

Statutory Authority

Department of Justice Appropriations Act, 2022 (Pub. L. No. 117-103)

Specific Information

The purpose of this national initiative is to fund the DOJ Jails and Justice Support Center which will serve as a resource center, develop and deliver resources for the field, and receive and respond to requests for assistance. BJA and the National Institute of Corrections (NIC) are full partners on this initiative and will collaboratively administer the Center.

Goals, Objectives, Deliverables, and Timeline

Goals

To establish the DOJ Jails and Justice Support Center, which will include:

- Defining core competencies and standards for corrections operations.
- Developing specialized training.
- Providing expert assessment and assistance.
- Serving as a resource hub where jails can go to develop or learn model policies that advance their correctional practices and promote compliance with constitutional and federal statutory requirements and other relevant U.S. law, regulations, standards, best practices, and guidelines.

Note: The DOJ Jails and Justice Support Center will be co-managed by BJA and NIC and builds upon the DOJ Jails Support and Technical Assistance Workgroup which was created in 2019 to assist state and local law enforcement agencies operating jails to comply with constitutional standards and other technical needs. The Center will also complement existing services and programs provided by relevant OJP components and NIC. Examples of these existing programs include the Prison Rape Elimination Act Grant Program, the Comprehensive Opioid, Stimulants and Other Substances Program, and the Justice and Mental Health Collaboration Program. The Center will serve as an added resource to the jail field.

Objectives

- Identify, develop, and disseminate constitutionally sound standards of professional practice for jails, officers, staff, and all who work in jails.
- Establish evidence-based core competencies for jails and the performance measures to track and evaluate them.
- Provide training to support the professional development of those working in jails.
- Provide consultation, advice, and technical assistance to jails and organizations that include jails as their members to work together to create safe jail environments for the people who live in, work in, and visit them.

Deliverables

One: Create a dedicated infrastructure when establishing the Center to coordinate and prioritize corrections knowledge, policy, practices, and professionalization. Build a robust online presence independent of any existing website for resources, training, and coordination of project activities to include a project management coordination and tracking system.

Two: With approval from BJA and NIC, dedicate an experienced professional to work full time on this effort.

Three: Compile, develop, and maintain model evidence-based jail policies. Work with jails to develop specific guidance and standards and model policies and practices that are supported by jails and noncorrectional stakeholder groups for jails of varying sizes. Ensure those standards, policies, and practices are regularly reviewed and updated.

Four: Provide modernized training focused on constitutional corrections, evidence-based jail practices, and a scenario-based curriculum to identify the core standards and train on them, and then measure the progress in reaching the goals of academy, specialized, and in-service training. Ensure that the competencies reflect constitutional and federal statutory requirements and other relevant U.S. law, regulations, standards, best practices, and guidelines. Develop a “Train the Trainer” curriculum and training curriculum. Implement training robustly, quickly, and on demand. All products must be 508 compliant.

Five: Conduct outreach to jails to build awareness of opportunities for knowledge building and for individualized consultations and technical assistance support. Following a jail’s request for support, review and assess its practices, protocols, training, and subject matter content to provide recommendations for training and operations that align with constitutional and federal statutory requirements and other relevant U.S. law, regulations, standards, best practices, and guidelines.

Six: Develop a collaborative jail advisory group drawing from the DOJ Jails Support and Technical Assistance Work Group and national stakeholder groups representing corrections, law enforcement, judiciary, Prison Rape Elimination Act professionals, community-based services, public health, behavioral and physical health, incarcerated individuals, family members of incarcerated individuals, victims, and local governments to identify best practices and gaps in knowledge, and provide strategic direction to support all facets of the Center. Host regular annual in-person meetings of this group to coordinate and guide the Center’s activities.

Seven: Review all consent decrees involving jails issued by DOJ in the last 10 years as well as the results of the Bureau of Justice Statistics’ jail mortality data and other sources to understand the most pressing challenges jails face. Analyze the findings and create interactive, accessible training and guidance to proactively assist jails in becoming compliant with constitutional and federal statutory requirements and other relevant U.S. law, regulations, standards, best practices, and guidelines. Create a searchable web-based database of findings, recommendations, and resources related to addressing those specific findings. Maintain this database with regular frequency incorporating new research, new policy, and new practices. Automatically deliver updated information to users based on their needs.

Eight: Maintain a cadre of researchers, both policy and operational subject matter experts (SMEs), and analysts who can assist jails in assessing, planning, and implementing policy, training, or practices to ensure the proposed activities are evidence informed and directed to supporting officer/staff safety; risk management; incarcerated individuals’ screening, assessment, and connections to relevant services within the facility and during reentry/transfer; and organizational and facility culture improvement. These services should be offered on demand to requesting jurisdictions.

Nine: Ensure sufficient technical skill sets and experience to effectively complete the tasks under the award, including: (a) a bench of vetted local and national SMEs (practitioners, academics) whose expertise and experience may additionally be accessed as needed and (b) a set of diverse staff, trainers, and/or SMEs that reflects a range of experiences and perspectives to effectively reach and connect with the communities and practitioners that they will serve.

Ten: With BJA/NIC approval, the Center will assign these experts to training and technical assistance (TTA) engagements and report on and monitor the TTA services provided. The roles of the SMEs will vary across engagements, so the TTA provider must develop protocols to define the scope of each SME’s role when needed (e.g., trainer, development of a product, participating in webinars). The Center must provide written reports to BJA on the TTA provided and the status of ongoing activities.

Eleven: Coordinate with and provide outreach to other national and international organizations that promote the profession of jails and corrections, community-based services, public health, local governments, and victims’ interests; share resources and materials; and incorporate new research and evidence.

Twelve: Develop cost benefit and risk management analyses when requested by jails to evaluate their initiatives and programs.

Thirteen: Host in-person convenings, communities of practices, and educational opportunities.

Fourteen: Coordinate all activities and products with BJA’s National Training and Technical Assistance Center (NTTAC) and develop an online work tracker or online dashboard to track the execution of key tasks. BJA/NIC staff should have real-time access to the online tracker/dashboard.

Fifteen: The TTA provider should prioritize responses to requests from practitioners and the field, in consultation with BJA/NIC. Not all ad hoc requests require an extensive response—some might require referral to resources or connection with other agencies for collaboration—but a limited number may require more thorough exploration and response. In consultation with BJA, the TTA provider must design a process to evaluate requests for assistance, triage requests that are received and respond to them efficiently and effectively, and produce regular (i.e., quarterly) written reports that summarize the support provided.

Sixteen: The TTA provider must serve as a thought leader and information clearinghouse for relevant research and best practices. All products must be 508 compliant. It must:

- a. Create knowledge diffusion products (e.g., fact sheets, webinars) and disseminate them through BJA/NIC networks.
- b. Convene practitioner learning communities, based on their respective projects/programs, to explore best

practices and lessons learned.

- c. Disseminate best practices and lessons learned by attending and presenting at national, state, local, tribal, or other conferences and events related to award activities where officials and other stakeholders can learn about successful strategies.

Seventeen: The TTA provider must proactively build field knowledge and capacity in the area of jails. This includes coordinating and supporting a presence at national meetings and conferences via workshops, panel presentations, and briefings. It must also review trends from the requests for assistance and TTA needs assessments, and then propose to and work with BJA on tailoring the TTA strategy to identify and meet these emerging needs and trends.

The Goals, Objectives, and Deliverables are directly related to the performance measures that show the completed work's results, as discussed in the "Application and Submission Information" section.

An applicant requesting a waiver to submit a late application must document their request for technical assistance in an email to the OJP Response Center at grants@ncjrs.gov **within 24 hours after the application deadline** to request approval to submit its application after the deadline. If an applicant has technical issues with Grants.gov, the applicant must contact the Grants.gov Customer Support Hotline within 24 hours of the Grants.gov deadline to request approval to submit after the deadline. Waiver requests to submit after the submission deadline must:

- Include an attachment(s) of the complete grant application and all required documentation and material; and
- Include the applicant's Unique Entity Identifier (UEI) and any applicable SAM.gov tracking number(s), Grants.gov Help Desk, and JustGrants Support Desk Ticket Numbers.

OJP will review each request for late submission and required supporting documentation and notify the applicant whether the request has been approved or denied. For more details on the waiver process, OJP encourages applicants to review the "Experiencing Unforeseen Technical Issues" section in the [OJP Grant Application Resource Guide](#).

Application Review Information

Applications that meet the basic minimum requirements will be evaluated by peer reviewers. Applications will be evaluated on how the proposed project/program addresses the following criteria:

1. Statement of the Problem/Description of the Issue (15%) - evaluate the applicant's understanding of the program/issue to be addressed.
2. Project Design and Implementation (40%)- evaluate the adequacy of the proposal, including the goals, objectives, timelines, milestones, and deliverables.
3. Capabilities and Competencies (30%) - evaluate the administrative and technical capacity of the applicant to successfully accomplish the goals and objectives.

5. Budget (10%) - evaluate for completeness, cost effectiveness, and allowability (e.g., reasonable, allocable, and necessary for project activities).

Other Review Criteria/Factors

Other important considerations for [insert PO] include geographic diversity, strategic priorities (specifically including, but not limited to, those priority areas already mentioned), available funding, past performance, [insert any additional programmatic review criteria that will be used to make funding decisions], and the extent to which the Budget Worksheet and Budget Narrative (web-based form) accurately explain project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

Review Process

Applications submitted under this solicitation that meet the basic minimum requirements, will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the review criteria listed above.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting the peer review. Although specific requirements may vary, the following are common requirements applicable to all OJP solicitations:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet the basic minimum requirements.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among other things to help assess whether an applicant with one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed \$250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the non-public segment of the integrity and performance system

accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

Important note on FAPIIS: An applicant may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General, who may consider not only peer review ratings and BJA recommendations, but also other factors as indicated in this section.
