Deliverables *(Category 4)*

4 CVIPI Capacity Building

Each of the successful awardees will partner with OJP to administer subawards to CBOs for the purpose of building capacity and supporting CVI strategies. To accomplish this, the intermediary organizations will undertake the following activities, which should be addressed in their proposal narratives in the project design and implementation section:

- Assess the gaps in CBOs' capacity to implement CVI projects.
- Develop, in collaboration with OJP, a solicitation or request for proposals with agreed-upon selection criteria and in accordance with state, local, and OJP regulations.

 - CBO identifies at least one CVI strategy it is planning to initiate or that is already operational in the jurisdiction.
 - CBO clearly identifies the resources needed to support the CVI strategy and build capacity.
 - CBO demonstrates capacity and willingness to work collaboratively with the TTA provider.

Deliverables *(Category 4)*

4 CVIPI Capacity Building

Once the subawards are made, the successful awardee will:

- Conduct meetings with subrecipient CBOs on a periodic basis and memorialize the proceedings with meeting notes, transcripts, and/or recordings.
- Complete capacity needs assessments for each participating CBO and work with the CBO to prepare a capacity development plan that is tailored to its current capacity, resources, and community conditions (e.g., violence levels, other existing services or partners). The capacity development plan will guide the TTA provided by the intermediary organization, and it will be reviewed and updated as necessary during the project period.
- Conduct regional and/or topical meetings across site-based localities on common issue areas. These meetings should include existing subject matter experts and material from DOJ programs and initiatives, including but not limited to OVC, OJJDP, and BJA programs related to community violence intervention.

- Complete a final report that includes: (a) a clear summary description of CVI strategies supported by the subrecipients, (b) assessment of programmatic violence reduction and/ or capacity enhancement outcomes, (c) identification of promising or effective practices, (d) common themes that emerge across strategies, (e) lessons learned and challenges encountered, and (f) recommendations for future CVI program development. Priority Considerations for All Categories

- Priority considerations supporting Executive Order 13985, *Advancing Racial Equity and Support for Underserved Communities Through the Federal Government*
 - Applications that include project(s) that will promote racial equity and the removal of barriers to access and opportunity for communities that have been historically underserved, marginalized, and adversely affected by inequality when making award decisions.

- Applications from communities with documented high and/or increasing levels of homicides per capita. Applicants should include documentation in the proposal narrative.
- Applicants that can demonstrate existing partnerships with multidisciplinary team stakeholder members (i.e., letters of commitment and/or MOU) will receive priority consideration and should include the attachment labeled “CVIPI Team” with the names of participants on the team and the names of their agencies.
- Applicants proposing a companion evaluation application under the NIJ solicitation.

Note: Addressing these priority areas is one of many factors that OJP considers in making funding decisions. Receiving priority consideration for one or more priority areas is not a guarantee of an award.
