To advance Executive Order 13929 Safe Policing for Safe Communities, the Attorney General determined that all state, local, and university or college law enforcement agencies must be certified by an approved independent credentialing body or have started the certification process to be eligible for FY 2022 DOJ discretionary grant funding. To become certified, the law enforcement agency must meet two mandatory conditions: (1) the agency’s use-of-force policies adhere to all applicable federal, state, and local laws and (2) the agency’s use-of-force policies prohibit chokeholds except in situations where use of deadly force is allowed by law. The certification requirement also applies to law enforcement agencies receiving DOJ discretionary grant funding through a subaward. For detailed information on this certification requirement, please visit [https://cops.usdoj.gov/SafePolicingEO](https://cops.usdoj.gov/SafePolicingEO) to access the Standards for Certification on Safe Policing for Safe Communities, the Implementation Fact Sheet, and the List of Designated Independent Credentialing Bodies.

All recipients and subrecipients (including any for-profit organization) must forgo any profit or management fee.

**Availability of Funds**

This solicitation, and awards (if any are made) under this solicitation are subject to the availability of appropriated funds and to any modifications or additional requirements that may be imposed by the agency or by law. In addition, nothing in this solicitation is intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States; its departments, agencies, or entities; its officers, employees, or agents; or any other person.

**Types of Awards**

BJA expects to make awards under this solicitation as cooperative agreements, which provide for OJP to have substantial involvement in carrying out award activities. **Financial Management and System of Internal Controls**

Award recipients and subrecipients (including recipients or subrecipients that are pass-through entities) must, as described in the Part 200 Uniform Requirements as set out at 2 C.F.R. 200.303, comply with standards for financial and program management. See the [OJP Grant Application Resource Guide](https://www.ojp.ojp.gov) for additional information.

**Budget Information**

Technological devices, artificial intelligence, predictive analytics, and other data-driven solutions ("Technological Enhancements") are increasingly used to augment crime reduction strategies and efforts. Care must be taken to assess and address any potential harm that could be activated by these solutions to ensure privacy, civil rights, and civil liberties are protected. Applicants proposing to utilize grant funds to support technological enhancements directly or via TTA may receive priority consideration if their proposal addresses the tenants of digital trust such as:

- How the technology will be carefully implemented through training of personnel and the setting and enforcement of policies governing its use to ensure that it contributes to positive outcomes for public safety, the community, and/or the criminal justice system.

- How the applicant will safeguard privacy, civil rights, and civil liberties throughout the duration of the project period.

Submit a budget that is complete, cost effective, and allowable (e.g., reasonable, allocable, and necessary for project activities).

Budget narratives should demonstrate generally how the applicant will maximize cost effectiveness of grant expenditures. They should explain how costs are intended to meet the objectives of the program and show all calculations. Budget narratives should demonstrate cost effectiveness in relation to potential alternatives and the objectives of the project.

Applicants must set aside an adequate amount of funding to implement a data collection plan.

**Cost Sharing or Matching Requirement**
This solicitation does not require a match.

**Unmanned Aircraft Systems**

The use of BJA grant funds for unmanned aircraft systems (UAS), including unmanned aircraft vehicles (UAV), and all accompanying accessories to support UAS or UAV, is unallowable.

- Discuss the effectiveness of expert TTA and best-practice strategies on sustainable programming.
- Provide a list of subrecipients or contractors who will provide TTA.

- Describe how the applicant will identify, assess, and deliver the proposed assistance at the local level through national, state, tribal, and local partnerships. Detail how effective TTA will be delivered as outlined in the “Program Description Specific Information” section.

Technological devices, artificial intelligence, predictive analytics, and other data-driven solutions (“Technological Enhancements”) are increasingly used to augment crime reduction strategies and efforts. Care must be taken to assess and address any potential harm that could be activated by these solutions to ensure privacy, civil rights, and civil liberties are protected. Applicants proposing to utilize grant funds to support technological enhancements directly or via TTA may receive priority consideration if their proposal addresses the tenants of digital trust such as:

- How the technology will be carefully implemented through training of personnel and the setting and enforcement of policies governing its use to ensure that it contributes to positive outcomes for public safety, the community, and/or the criminal justice system.
- How the applicant will safeguard privacy, civil rights, and civil liberties throughout the duration of the project period.

c. Capabilities and Competencies

- Clearly articulate the applicant institution’s history of involvement with implementation and technical assistance coordination at a national scope. Illustrate its ability to effectively manage complex training, technical assistance, and national programs and projects.
- Describe the management structure, staffing, and in-house or contracted capacity to complete the objectives and associated deliverables.
- Attach three examples of relevant products the applicant has produced that exemplify high quality products to communicate effectively with stakeholders (e.g., website, fact sheet, research brief, link to archived webinar, technical assistance final report with recommendations, infographics, etc.).
• Include résumé(s)/curriculum vitae of key project staff demonstrating law enforcement, MHDs, MHSUDs, and disability service delivery-related experience that is specific to the scope of the initiative’s goals and objectives. Include letters of support/memoranda of understanding to demonstrate partnerships as part of the project design.

• Describe in detail the staff’s competency and work experience within a law enforcement agency or their work history within a criminal justice organization/association. The applicant should describe its plans to include a significant law enforcement, courts, corrections, mental health, or disability presence within the applicant agency that mirrors the target audience within states, counties, and local law enforcement organizations.

• Describe the representation, experience, and expertise of the applicant and proposed contractors/consultants/subrecipients/partners in the following areas: law enforcement, MHDs, MHSUDs, disability service provider delivery systems, advocacy groups, individuals with lived experience, and family members.

• Ensure the applicant agency has on staff, or under contract, experienced individuals to organize and deliver products/training with the skills, expertise, and ability to plan and implement collaborative response strategies between justice entities and their mental health/disability service delivery system partners (e.g., crisis stabilization unit, co-responder teams, community court, disability response teams, specialized probation), as envisioned by the community receiving TTA.

• Describe how the proposed management structure and staffing of the project will facilitate the delivery of the TTA services. The management and organizational structure should match the staffing needs necessary to accomplish the tasks outlined in the project task timeline. Information regarding the personnel assigned to these tasks and whether their résumés and role descriptions are included will contribute to the assignment of points relative to this criterion.

d. Plan for Collecting the Data Required for this Solicitation’s Performance Measures

To be considered timely, the **full application** must be submitted in JustGrants by the JustGrants application deadline.

**Experiencing Unforeseen Technical Issues**

An applicant that experiences unforeseen SAM.gov, Grants.gov, or JustGrants technical issues beyond its control that prevent application submission by the deadline must demonstrate all efforts in requesting technical support in order to submit an application by the deadline. Application Review Information

Review Criteria

a. Merit Review Criteria

Applications that meet the basic minimum requirements will be evaluated by peer reviewers on how the proposed project/program addresses the following criteria:

1. Statement of the Problem/Description of the Issue (15 percent) — Evaluate the applicant’s understanding of the program/issue to be addressed.

2. Project Design and Implementation (40 percent) — Evaluate the adequacy of the proposal, including the goals, objectives, timelines, milestones, and deliverables.

3. Capabilities and Competencies (30 percent) — Evaluate the administrative and technical capacity of the applicant to successfully accomplish the goals and objectives.

4. Plan for Collecting the Data Required for this Solicitation’s Performance Measures (5 percent) — Evaluate the applicant’s understanding of the performance data reporting requirements and the plan for collecting the required data.

5. Budget (10 percent) — Evaluate for completeness, cost effectiveness, and allowability (e.g., reasonable, allocable, and necessary for project activities).

b. Other Review Criteria/Factors

Other important considerations for BJA include geographic diversity, strategic priorities (Specifically including, but not limited to technological enhancements — the priority area already mentioned), available funding, past performance, past funding utilization, history of product impact and the extent to which the budget worksheet and budget narrative (web-based form) accurately explain project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

Review Process

Applications submitted under this solicitation that meet basic minimum requirements will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the review criteria listed above.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting the peer review. Although specific requirements may vary, the following are common requirements applicable to all OJP solicitations:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet the basic minimum requirements.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among other things to help assess whether an applicant with one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed $250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

Important note on FAPIIS: An applicant may review and comment on any information about itself that currently...
appears in FAPIIS and was entered by a federal awarding agency. OJP will consider such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General, who may consider not only peer review ratings and BJA recommendations, but also other factors as indicated in this section.

**Federal Award Notices**

See the [OJP Grant Application Resource Guide](#) for information on award notifications and instructions.

For additional information on these legal requirements, see the “Administrative, National Policy, and Other Legal Requirements” section in the [OJP Grant Application Resource Guide](#).

**Information Technology (IT) Security Clauses**

An application in response to this solicitation may require inclusion of information related to information technology security. See the [OJP Grant Application Resource Guide](#) for information on information technology security.
