Program Description

Overview

OJP is committed to advancing work that promotes civil rights and racial equity, increases access to justice, supports crime victims and individuals impacted by the justice system, strengthens community safety and protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

With this solicitation, BJA seeks to support state, local, and tribal jurisdictions' capacity to work with their ATF partners to utilize intelligence, technology, and community engagement to swiftly identify unlawfully used firearms and their sources, and effectively prosecute perpetrators engaged in violent crime.

Statutory Authority

Pub. L. No. 90-351, Title I, Sec. 506(b) (codified at 34 U.S.C. 10157(b)). Additional authority for this program may be provided by a full-year appropriations act for FY 2023. As of the writing of this solicitation, the Department of Justice is operating under a short-term "Continuing Resolution;" no full-year appropriation for the Department has been enacted for FY 2023. The Edward Byrne Memorial Justice Assistance Grant (JAG) Program authorization provides that up to 5 percent of the funds available to carry out subpart 1 of Title I, Part E of the Omnibus Crime Control and Safe Streets Act of 1968 may be granted, among other reasons, for one or more of the purposes specified in 34 U.S.C. § 10152 upon a determination that it is necessary "to combat, address, or otherwise respond to precipitous or extraordinary increases in crime, or in a type or types of crime." 34 U.S.C. § 10157(b)(1).

Specific Information

The applicant must clearly identify how the funding will directly address a precipitous or extraordinary increase in violent firearm-related crime in their jurisdiction. This could be for the applicant's entire jurisdiction or for a specific area in the jurisdiction. The applicant must identify the following:

Categories or types of firearm-related violent crime that have precipitously increased within the jurisdiction

Period of time during which the categories/types of crime increased

Number of criminal nonfatal shootings and homicides committed with the use of a firearm

Volume of firearm violence in the target locality or region

The applicant must clearly state whether funding will be used to develop a new CGIC or to expand an existing CGIC.

Award recipients will work with ATF to collaborate on the immediate collection, management, and analysis of crime gun evidence such as shell casings and test fires of unlawfully used firearms recovered in real time to identify criminal shooters, disrupt criminal activity, and prevent future violence. If selected, the applicant will be required to develop a memorandum of

understanding (MOU) with ATF outlining the development of a new CGIC or expansion of existing work. The applicant must include a letter of support from the local ATF field office with their application. The list of ATF Field Divisions can be found at <https://www.atf.gov/contact/atf-field-divisions>.

This collaboration will use both ATF's eTrace (Electronic Tracing System), run by the National Tracing Center, and ATF's National Integrated Ballistics Information Network (NIBIN), and, if available, the NIBIN National Correlation and Training Center (NNCTC). NIBIN is the only national network that allows for the capture and comparison of ballistic evidence to aid in solving and preventing violent crimes involving firearms. NIBIN technology compares images of submitted ballistic evidence from shooting scenes and recovered firearms and produces a list of possible similar results. Trained NIBIN technicians then conduct a correlation review of these results, identifying NIBIN leads or potential links or associations from the same firearm. Additional information about NIBIN can be found at <https://www.atf.gov/firearms/nibin-training-outline-and-guidelines>.

eTrace is an internet-based system that allows participating law enforcement agencies to submit firearm traces to ATF for identification. The use of eTrace is critical for investigating and identifying gun trafficking as well as straw purchases. Applicants should include how they will develop strategies working with their partner agencies to identify the trafficking of crime guns, straw purchasers, and corrupt federal firearm licensees. As reported by ATF, virtually every crime gun in the United States starts off as a legal firearm, making the need to prevent gun trafficking a crucial part of a comprehensive approach to reducing gun-related crime. To learn about eTrace, contact ATF's National Tracing Center at 1-800-788-7133, extension 01540.

A key component of a CGIC is collaborative meetings with local, state, and federal partners to review intelligence and information on recent shootings and NIBIN leads. One of these routine meetings should be dedicated to GunStat, which measures core strategies and benchmarks that lead to an overall reduction in violent gun-related crime. In addition to the CGIC partners, the GunStat meeting should include parole and probation as well as the juvenile supervision agency. The focus of the meeting should be to prioritize warrant service, improve compliance by those under supervision for gun offenses, and enforce all relevant gun laws. The partners should also follow up on those who committed gun offenses who have been previously identified and discuss any new individuals identified through the most recent NIBIN leads. Note that awardees will receive training and technical assistance provided by BJA at no cost to them on the GunStat process and should indicate a willingness to implement it.

If the applicant's jurisdiction is utilizing a community violence intervention (CVI) program, they should outline how they will work with their partner agencies to coordinate on efforts to prevent gun crime through this approach. Information on CVI can be found at <https://bjajoin.gov/program/community-violence-intervention/overview>.

Goals, Objectives, and Deliverables

Goals

The primary goals of a CGIC are to develop leads to swiftly identify unlawfully used firearms and their sources and to effectively prosecute individuals engaged in violent crime.

Objectives

Projects must include intensive, timely, ongoing collaboration with ATF, local and tribal police, local crime laboratories, probation and parole, prosecuting attorneys, U.S. Attorneys' Offices (USAOs), crime analysts, community groups, and academic organizations.

Deliverables

Awardees are required to provide the following deliverables at the conclusion of their grants:

1. A collaborative working group, the CGIC integration team, including representatives from ATF, local/tribal police, probation and parole, prosecuting attorneys, USAO, local crime laboratory, crime analysts, community groups, and academic organizations. This working group will be formed using an MOU detailing partner roles and responsibilities.
2. A CGIC business process utilizing NIBIN and crime gun tracing through eTrace, including purchasing appropriate technology, if necessary. This process includes developing policy that governs a crime scene response, the processing of forensic evidence in a timely fashion, as well as prioritizes NIBN cases for prosecution.
3. The use of GunStat to support reductions in violent crime and recidivism by identifying individuals that are regularly involved in gun crime and gun-related cases. With GunStat, law enforcement, prosecution, and community supervision agencies prioritize these cases through shared data and intelligence as a way to disrupt the shooting cycle and effectively prosecute individuals engaged in violent crime.
4. Coordination with partner agencies to address gun trafficking and straw purchases.
5. Effective investigations and prosecutions of violent crime involving feloniously used firearms.
6. Ability to train new staff and criminal justice partners to develop the skills necessary to effectively investigate and prosecute gun crime.
7. Violent crime prevention strategies in collaboration with community and nongovernmental organizations such as CVI.
8. Enhanced services for victims of gun crime or individuals at risk to become victims of gun crime.
9. Improved responses to gun shots fired.
10. Investment in/development of a tracking system for NIBIN leads and subsequent cases in coordination with the BJA TTA provider.
11. Collection of performance data that reinforce the CGIC goals.
12. A final analysis report describing the CGIC's implementation and outcomes.

The goals, objectives, and deliverables are directly related to the performance measures that show the completed work's results, as discussed in the "Application and Submission Information" section.

Evidence-Based Programs or Practices

OJP strongly encourages the use of data and evidence in policymaking and program development for criminal justice, juvenile justice, and crime victim services. For additional information and resources on evidence-based programs or practices, see the [OJP Grant Application Resource Guide](#).

Information Regarding Potential Evaluation of Programs and Activities

OJP may conduct or support an evaluation of the projects and activities funded under this solicitation. For additional information and applicable documentation to be included in the application, see the [OJP Grant Application Resource Guide](#) section entitled "Information

Regarding Potential Evaluation of Programs and Activities.”

Priority Areas

The Department of Justice is committed to advancing work that promotes civil rights and racial equity, increases access to justice, supports crime victims and individuals impacted by the justice system, strengthens community safety and protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

Executive Order 14074, Advancing Effective, Accountable Policing and Criminal Justice Practices to Enhance Public Trust and Public Safety requires the Attorney General, through discretionary grantmaking and training and technical assistance, to encourage and support State, Tribal, local, and territorial governments and law enforcement agencies to adopt the policies, best practices, and guidelines addressed in the executive order, including, but not limited to: (i) investigating deaths in custody; (ii) recruiting and retaining diverse and service-oriented law enforcement professionals; (iii) collecting and reporting use of force and misconduct data; (iv) improving community and law enforcement dialogue; (v) responding to individuals in mental health crisis or with disabilities; (vi) the proper and responsible use of technology; (vii) restrictions on unannounced entries and certain restraints; (viii) addressing implicit bias; (ix) restricting the use of militarized equipment; (x) broader criminal justice reform; and, (xi) officer wellness and mental health.

As such guidance is developed in accordance with the executive order, and where the guidance is applicable to the specific solicitation, DOJ will identify specific opportunities for training and technical assistance and priority consideration for applications that support the policies of the executive order

For the purposes of this solicitation, OJP will provide priority consideration for the following items, for which the DOJ has already issued policies, guidance, and/or best practices:

1. Participation in the collection and reporting to DOJ of data on law enforcement use of force and deaths in custody;
2. Participation in the collection and reporting to DOJ of data on officer suicides and officers killed and assaulted;
3. Restrictions on unannounced entries and neck/carotid restraints; and,
4. Restrictions on the possession and use of militarized equipment.

To receive this consideration, the applicant must describe how they currently support one or more of the identified policy areas within the department.

In addition, specific to crime gun intelligence work, applicants who can demonstrate the following will receive separate priority consideration:

1. High volume of nonfatal shootings
2. High volume of firearm-related homicides
3. Demonstrated strong partnerships, including with tribes and sheriffs' offices

To receive this consideration, the applicant must describe how the proposed project(s) will address one or more of the identified CGIC priority areas.

BJA may also give priority selection consideration to those jurisdictions that have never received CGIC funding in previous years.

Note: Addressing these priority areas is one of many factors that OJP considers in making

funding decisions. Receiving priority consideration for one or more priority areas does not guarantee an award.

BJA expects to make awards under this solicitation as grants. A limited amount of funds may be used for technology and equipment such as, but not limited to, test-fire equipment, NIBIN machines, analytic software, data collection software, and gunshot detection systems and for costs to implement the NIBIN Enforcement Support System (NESS).

It is critical to track the final outcome of cases generated from both NIBIN and eTrace leads. Accordingly, at least 20 percent of grant funding should be allocated to support the work of local tribal prosecutors to ensure they are able to track and prioritize CGIC cases. This funding could be used for personnel, technology, tools for data collection and analysis.

The letter of support must outline how the applicant will work with the local ATF field office to expand upon its work and indicate that an MOU between the grantee and ATF will be developed in the event the applicant is granted an award. The applicant will submit the letter by uploading the document as an attachment in JustGrants.

Letter of Support from Chief Executive of the Law Enforcement Agency and Partner Agencies

Attach a letter of support signed by the chief executive of the applicant law enforcement agency stating their support of the program and including support from the following agencies: local/tribal prosecutor, parole and probation, and the crime lab director. The applicant will submit the letter by uploading the document as an attachment in JustGrants.

Research and Evaluation Independence and Integrity Statement

If an application proposes research (including research and development) and/or evaluation, the applicant must demonstrate research/evaluation independence and integrity, including appropriate safeguards, before it may receive award funds. The applicant will upload documentation of its research and evaluation independence and integrity as an attachment in JustGrants. For additional information, see the [OJP Grant Application Resource Guide](#).

Disclosure and Assurances

The applicant will address the following disclosures and assurances.

Disclosure of Lobbying Activities

Complete and submit the SF-LLL in Grants.gov. Once the applicant submits in Grants.gov, this information will pre-pond into JustGrants. See the [OJP Grant Application Resource Guide](#) for additional information.

Applicant Disclosure of Duplication in Cost Items

A DOJ High Risk Grantee is an award recipient that has received a DOJ High Risk designation based on a documented history of unsatisfactory performance; financial instability; management system or other internal control deficiencies; noncompliance with award terms and conditions on prior awards or is otherwise not responsible. See the [OJP Grant Application Resource Guide](#) for additional information.

How to Apply

Registration: Before submitting an application, all applicants must register with the System for Award Management (SAM). You must renew and validate your registration every 12 months. If you do not renew your SAM registration, it will expire. An expired registration can delay or prevent application submission in Grants.gov and JustGrants. Registration and renewal can take up to 10 business days to complete.

Submission: Applications must be submitted to DOJ electronically through a two-step process via Grants.gov and JustGrants.

Step 1: After registering with SAM, the applicant must submit the **SF-424** and **SF-LLL** in Grants.gov at <https://www.grants.gov/web/grants/register.html> by the Grants.gov deadline. **Submit the SF-424 and SF-LLL as early as possible, but no later than 48 hours before the Grants.gov deadline.** If an applicant fails to submit in Grants.gov, they will be unable to apply in JustGrants.

Step 2: The applicant must then submit the **full application**, including attachments, in JustGrants at [JustGrants.usdoj.gov](#) by the JustGrants deadline.

Within 24 hours after receipt of confirmation emails from Grants.gov, the individual in Section 8F of the SF-424 will receive an email from DIAMD-NoReply@usdoj.gov with instructions on how to create a JustGrants account. Register the Entity Administrator and the Application Submitter with JustGrants as early as possible but no later than 48-72 hours before the JustGrants deadline. Once registered in JustGrants, the Application Submitter will receive an emailed link to complete the rest of the application in JustGrants. The Entity Administrator also will need to log into JustGrants to review and invite the applicant's Authorized Representative(s) before an application can be submitted.

Submit the complete application package in JustGrants at least 24 – 48 hours prior to the JustGrants deadline. Some of the application components will be entered directly into JustGrants, and others will require uploading attached documents. Therefore, applicants will need to allow ample time before the JustGrants deadline to prepare each component. Applicants may save their progress in the system and revise the application as needed prior to hitting the Submit button at the end of the application in JustGrants.

For additional information, see the “How to Apply” section in the [OJP Grant Application Resource Guide](#) and the [DOJ Application Submission Checklist](#).

Submission Dates and Time

The **SF-424** and the **SF-LLL** must be submitted in Grants.gov by February 6, 2023 8:59 PM ET.

The **full application** must be submitted in JustGrants by February 14, 2023 8:59 PM ET.

OJP urges applicants to submit their Grants.gov and JustGrants submissions prior to the due dates with sufficient time to correct any errors and resubmit by the submission deadlines if a rejection notification is received. To be considered timely, the **full application** must be submitted in JustGrants by the JustGrants application deadline. Failure to begin the SAM.gov, Grants.gov, or JustGrants registration process in sufficient time (i.e., waiting until the date identified in this solicitation) is not an acceptable reason for late submission.

Experiencing Unforeseen Technical Issues Preventing Submission of an Application

OJP will only consider requests to submit an application after the deadline when the applicant can document that a technical issue with a government system prevented application submission.

If an applicant misses a deadline due to unforeseen technical issues with SAM.gov, Grants.gov, or JustGrants, the applicant may request a waiver to submit an application after the deadline. However, the waiver request will not be considered unless it includes a tracking number generated when the applicant contacts the applicable service desks to report technical difficulties. Tracking numbers are generated automatically when an applicant emails the applicable service desks; and for this reason applicants are encouraged to email the appropriate service desk, even if they also intend to call the service desk for phone support. Experiencing wait times for phone support does not relieve the applicant of the responsibility of getting a tracking number.

An applicant experiencing technical difficulties must contact the associated service desk indicated below to report the technical issue and receive a tracking number:

- SAM.gov - contact the [SAM Help Desk \(Federal Service Desk\)](#), Monday – Friday from 8 a.m. to 8 p.m. ET at 866-606-8220.
- Grants.gov - contact the [Grants.gov Customer Support Hotline](#), 24 hours a day, 7 days a week, except on federal holidays, at 800-518-4726, 606-545-5035, or support@grants.gov.

- JustGrants - contact the JustGrants Service Desk at JustGrants.Support@usdoj.gov or 833-872-5175, Monday – Friday from 7 a.m. to 9 p.m. ET and Saturday, Sunday, and Federal holidays from 9 a.m. to 5 p.m. ET.

If an applicant has technical issues with SAM.gov or Grants.gov, the applicant must contact the OJP Response Center at grants@ncjrs.gov within **24 hours of the Grants.gov deadline** to request approval to submit after the deadline.

If an applicant has technical issues with JustGrants that prevent application submission by the deadline, the applicant must contact the OJP Response Center at grants@ncjrs.gov within 24 hours of the JustGrants deadline to request approval to submit after the deadline.

Waiver requests sent to the OJP Response Center must -

- describe the technical difficulties experienced,
- include a timeline of the applicant's submission efforts (e.g., date and time the error occurred, date and time of actions taken to resolve the issue and resubmit; and date and time support representatives responded),
- include an attachment of the complete grant application and all the required documentation and materials,
- include the applicant's Unique Entity Identifier (UEI), and
- include any SAM.gov, Grants.gov, and JustGrants Service Desk tracking numbers documenting the technical issue.

OJP will review each waiver request and the required supporting documentation and notify the applicant whether the request for late submission has been approved or denied. An applicant who does not provide documentation of a technical issue or who does not submit a waiver request within the required time period will be denied.

For more details on the waiver process, OJP encourages applicants to review the "Experiencing Unforeseen Technical Issues" section in the [OJP Grant Application Resource Guide](#).

Application Review Information

Review Criteria

Merit Review Criteria

Applications that meet the basic minimum requirements will be evaluated by peer reviewers on how the proposed project/program addresses the following criteria:

1. Statement of the Problem/Description of the Issue (25%) - evaluate the applicant's understanding of the program/issue to be addressed.
2. Project Design and Implementation (25%)- evaluate the adequacy of the proposal, including the goals, objectives, timelines, milestones, and deliverables.
3. Capabilities and Competencies (15%) - evaluate the applicant's administrative and technical capacity to successfully accomplish the goals and objectives.
4. Plan for Collecting the Data Required for this Solicitation's Performance Measures (15%) - evaluate the applicant's understanding of the performance data reporting requirements and the plan for collecting the required data.

5. Budget (20%) - evaluate for completeness, cost effectiveness, and allowability (e.g., reasonable, allocable, and necessary for project activities).

Other Review Criteria/Factors

Other important considerations for BJA include geographic diversity, strategic priorities (specifically including, but not limited to, those priority areas already mentioned, if applicable), available funding, past performance, a good partnership with ATF, and the extent to which the Budget Web-Based form accurately explains project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

Review Process

Applications submitted under this solicitation that meet the basic minimum requirements will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the review criteria listed above.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting the peer review. Although specific requirements may vary, the following are common requirements applicable to all OJP solicitations:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet the basic minimum requirements.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant entity. Among other things to help assess whether an applicant with one or more prior federal awards has a satisfactory record of performance, integrity, and business ethics, OJP checks whether the applicant entity is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed \$250,000 in federal funds, OJP also must review and consider any information about the applicant entity that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

Important Note on FAPIIS: An applicant may review and comment on any information about its organization that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant entity.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General, who may consider not only peer review ratings and BJA recommendations, but also other factors as indicated in this section.
