Note: The allocations are based on a formula that provides each State and Territory with a base amount, plus an allocation in proportion to the ratio that its prison population bears to the total prison population of all States and Territories. The prison population includes all inmates under the jurisdiction of the State or Territory for whom the State has legal authority and responsibility. The counts include inmates who may be housed in other States, county or city jails, or other adult correctional facilities. As of December 31, 2001, inmates sentenced to more than 1 year in the District of Columbia were held under the responsibility of the Federal Bureau of Prisons.

¹State prisoner counts are as of December 31, 2021 as reported to the Bureau of Justice Statistics (BJS) in the 2022 National Prisoner Statistics Program (NPS-1B).

²For States with an integrated prison and jail system, prisoner counts include only those inmates with sentences of more than 1 year.

³Maine, Nebraska, New Jersey, South Dakota and Puerto Rico did not apply for RSAT funds in FY2023.

⁴Prisoner counts for the territories are based on the most recent sentenced jurisdiction data available; the data year of most recent available data varies. Data for American Samoa represent the number of sentenced persons under jurisdiction in April 2022, while those for Guam represent the number of sentenced persons on December 31, 2020 and for the Northern Mariana Islands, December 31, 2021. The count for the U.S. Virgin Islands represents the total number of persons under jurisdiction in late March, 2019. Please see BJS publication Prisoners in 2021 (BJS web, NCJ305125) for details.
