- Support efforts to develop, implement, expand, and/or enhance comprehensive CVI strategies that will maximize existing and new resources.

Applicants not currently implementing CVI strategies may seek support to plan and start up new programs. Applicants currently implementing CVI strategies may seek support to expand or enhance the reach of existing services.
- Applicants should propose to undertake their work through a multidisciplinary team of stakeholders, which may be an existing, expanded, or new formal working group, committee, or collaboration.
Category 1 and 2: CVIPI for Community-Based/Tribal Organizations and City/County/Tribal Governments

• Initial planning phase – up to 9 months
  o Key partners, including research partners, use data and information to design or refine approaches to addressing community violence that are based on evidence or test a theory of change. The team will produce a comprehensive Violence Reduction Strategic Plan that is informed by local data and any existing strategic plans.

• Research partner requirement
  o The research partner should be an active member of the working group, employ an action research method to implement the program and its strategies, identify and suggest evidence-based strategies to tailor to the community, and lead the identification and collection of key performance metrics to include ongoing program process and outcome assessments.

• Training and technical assistance (TTA) will be provided to grants made in these categories by the OJP-funded TTA provider.
Category 1 and 2: CVIPI for Community-Based/Tribal Organizations and City/County/Tribal Governments

• Evaluation: Applicants under categories 1 and 2 are strongly encouraged to participate in a rigorous evaluation of their CVI strategy. The NIJ released a separate solicitation titled NIJ FY24 Community-Based Violence Intervention and Prevention Initiative (CVIPI) Research and Evaluation. Interested applicants to Categories 1 and 2 should clearly indicate their interest in participating in an evaluation by noting this in the proposal abstract and naming the applicant organization that will separately apply to the NIJ solicitation. OJP will prioritize funding for applications that also submit a paired proposal in response to the NIJ solicitation.

• If applicants propose engaging with the same entity or individual to carry out the roles of research partner and evaluator under the NIJ solicitation, the applicant must budget separately for these roles in the respective applications and clearly describe methods for distinguishing these roles and maintaining objectivity and independence in the evaluation.

3 CVIPI for State Governments

Applicants to Category 3 must address the following deliverables in their proposal narratives in the project design and implementation section:

• Develop and implement a process for assessing and addressing the gaps in local government and CBOs’ capacity to implement CVIPI projects. This process should include:

Category 4: CVIPI Capacity Building Category

- OJP will fund up to four intermediary organizations, serving as fiscal agents, each of which will in turn identify and provide intensive TTA, oversight, and subawards to up to five CBOs over the course of the project period.
- Intermediary organizations may be national, regional, or more localized organizations with established capacity to work with CBOs, particularly those focused on underserved communities.
- Applicants must demonstrate deep knowledge and experience in one or more evidence-based CVI strategies, as well as expertise in connecting with victims and survivors, as a critical component of this work.
- Intermediary organizations may be comprised of multiple collaborating entities that collectively possess the range of skills and expertise necessary to administer the subawards. Such arrangements must identify a lead applicant (fiscal agent) and clearly describe a management plan for coordinating across the collaborating entities.
Category 4: CVIPI Capacity Building Category

- OJP is open to a range of models to be used by intermediary organizations serving as fiscal agents. The organization may focus on CBOs in a particular city or region, or it may have a more national scope.

- The intermediary organization is expected to competitively award subawards in collaboration with OJP and provide TTA support to CBOs implementing new CVI programs or expanding existing programs. The subawards are expected to range between $100,000 and $250,000.

- CBOs will use the funding to increase their capacity and workforce development in support of community violence interventions.

- Subawards to CBOs may include salary support, equipment, materials, training opportunities, and travel costs associated with TTA. Funds may also be used for developing curricula, assessment tools, or organizational policies and procedures such as wellness plans to support CVI staff.

Deliverables

4 CVIPI Capacity Building

- Develop, in collaboration with OJP, a solicitation or request for proposals with agreed-upon selection criteria and in accordance with state, local, and OJP regulations.
- Develop and host, in collaboration with OJP, a pre-application solicitation webinar for potential applicants.
- Conduct a CBO selection process, in collaboration with and approval from BJA, to identify and award subrecipient sites as part of a subaward process. This CBO selection process should ensure that each of the selected CBOs meet the following criteria:
  o CBO identifies at least one CVI strategy it is planning to initiate or that is already operational in the jurisdiction.
  o CBO clearly identifies the resources needed to support the CVI strategy and build capacity.
  o CBO demonstrates capacity and willingness to work collaboratively with the TTA provider.
Deliverables

4 CVIPI Capacity Building

Once the subawards are made, the successful awardee will:

• Conduct meetings with subrecipient CBOs on a periodic basis and memorialize the proceedings with meeting notes, transcripts, and/or recordings.

• Complete capacity needs assessments for each participating CBO and work with the CBO to prepare a capacity development plan that is tailored to its current capacity, resources, and community conditions (e.g., violence levels, other existing services or partners). The capacity development plan will guide the TTA provided by the intermediary organization, and it will be reviewed and updated as necessary during the project period.

• Conduct regional and/or topical meetings across site-based localities on common issue areas. These meetings should include existing subject matter experts and material from DOJ programs and initiatives, including but not limited to OVC, OJJDP, and BJA programs related to community violence intervention.
Deliverables

• Complete a final report that includes: (a) a clear summary description of CVI strategies supported by the subrecipients, (b) assessment of outcomes, (c) identification of promising or effective practices, (d) common themes that emerge across strategies, (e) lessons learned and challenges encountered, and (f) recommendations for future CVI program development. This report should emphasize an evidence-informed assessment framework that is attentive to the contextual factors at the participating CBOs.
