Note: The allocations are based on a formula that provides each State and Territory with a base amount, plus an allocation in proportion to the ratio that its prison population bears to the total prison population of all States and Territories. The prison population includes all inmates under the jurisdiction of the State or Territory for whom the State has legal authority and responsibility. The counts include inmates who may be housed in other States, county or city jails, or other adult correctional facilities. As of December 31, 2001, inmates sentenced to more than 1 year in the District of Columbia were held under the responsibility of the Federal Bureau of Prisons.

<sup>1</sup>State prisoner counts are as of December 31, 2019 as reported to the Bureau of Justice Statistics (BJS) in the 2020 National Prisoner Statistics Program (NPS-1B).

<sup>2</sup>For States with an integrated prison and jail system, prisoner counts include only those inmates with sentences of more than 1 year.

<sup>3</sup>Michigan, Nebraska, South Dakota and the Northern Mariana Islands did not apply for RSAT funds in FY2022.

<sup>4</sup>Prisoner counts for the territories are based on the most recent data available; the data year of most recent available data varies. Data for American Samoa represent the number of persons in custody in December 2017, while those for the U.S. Virgin Islands represent the total number of persons under jurisdiction in late March, 2019. Puerto Rico's data represent the number of prisoners sentenced to more than 1 year on December 31, 2019. Please see BJS publication *Prisoners in 2020* (BJS web, NCJ302776) for details.
