

Issue Warrant Process

Primary Flow

Issue Warrant Process

Alternative Flow 1

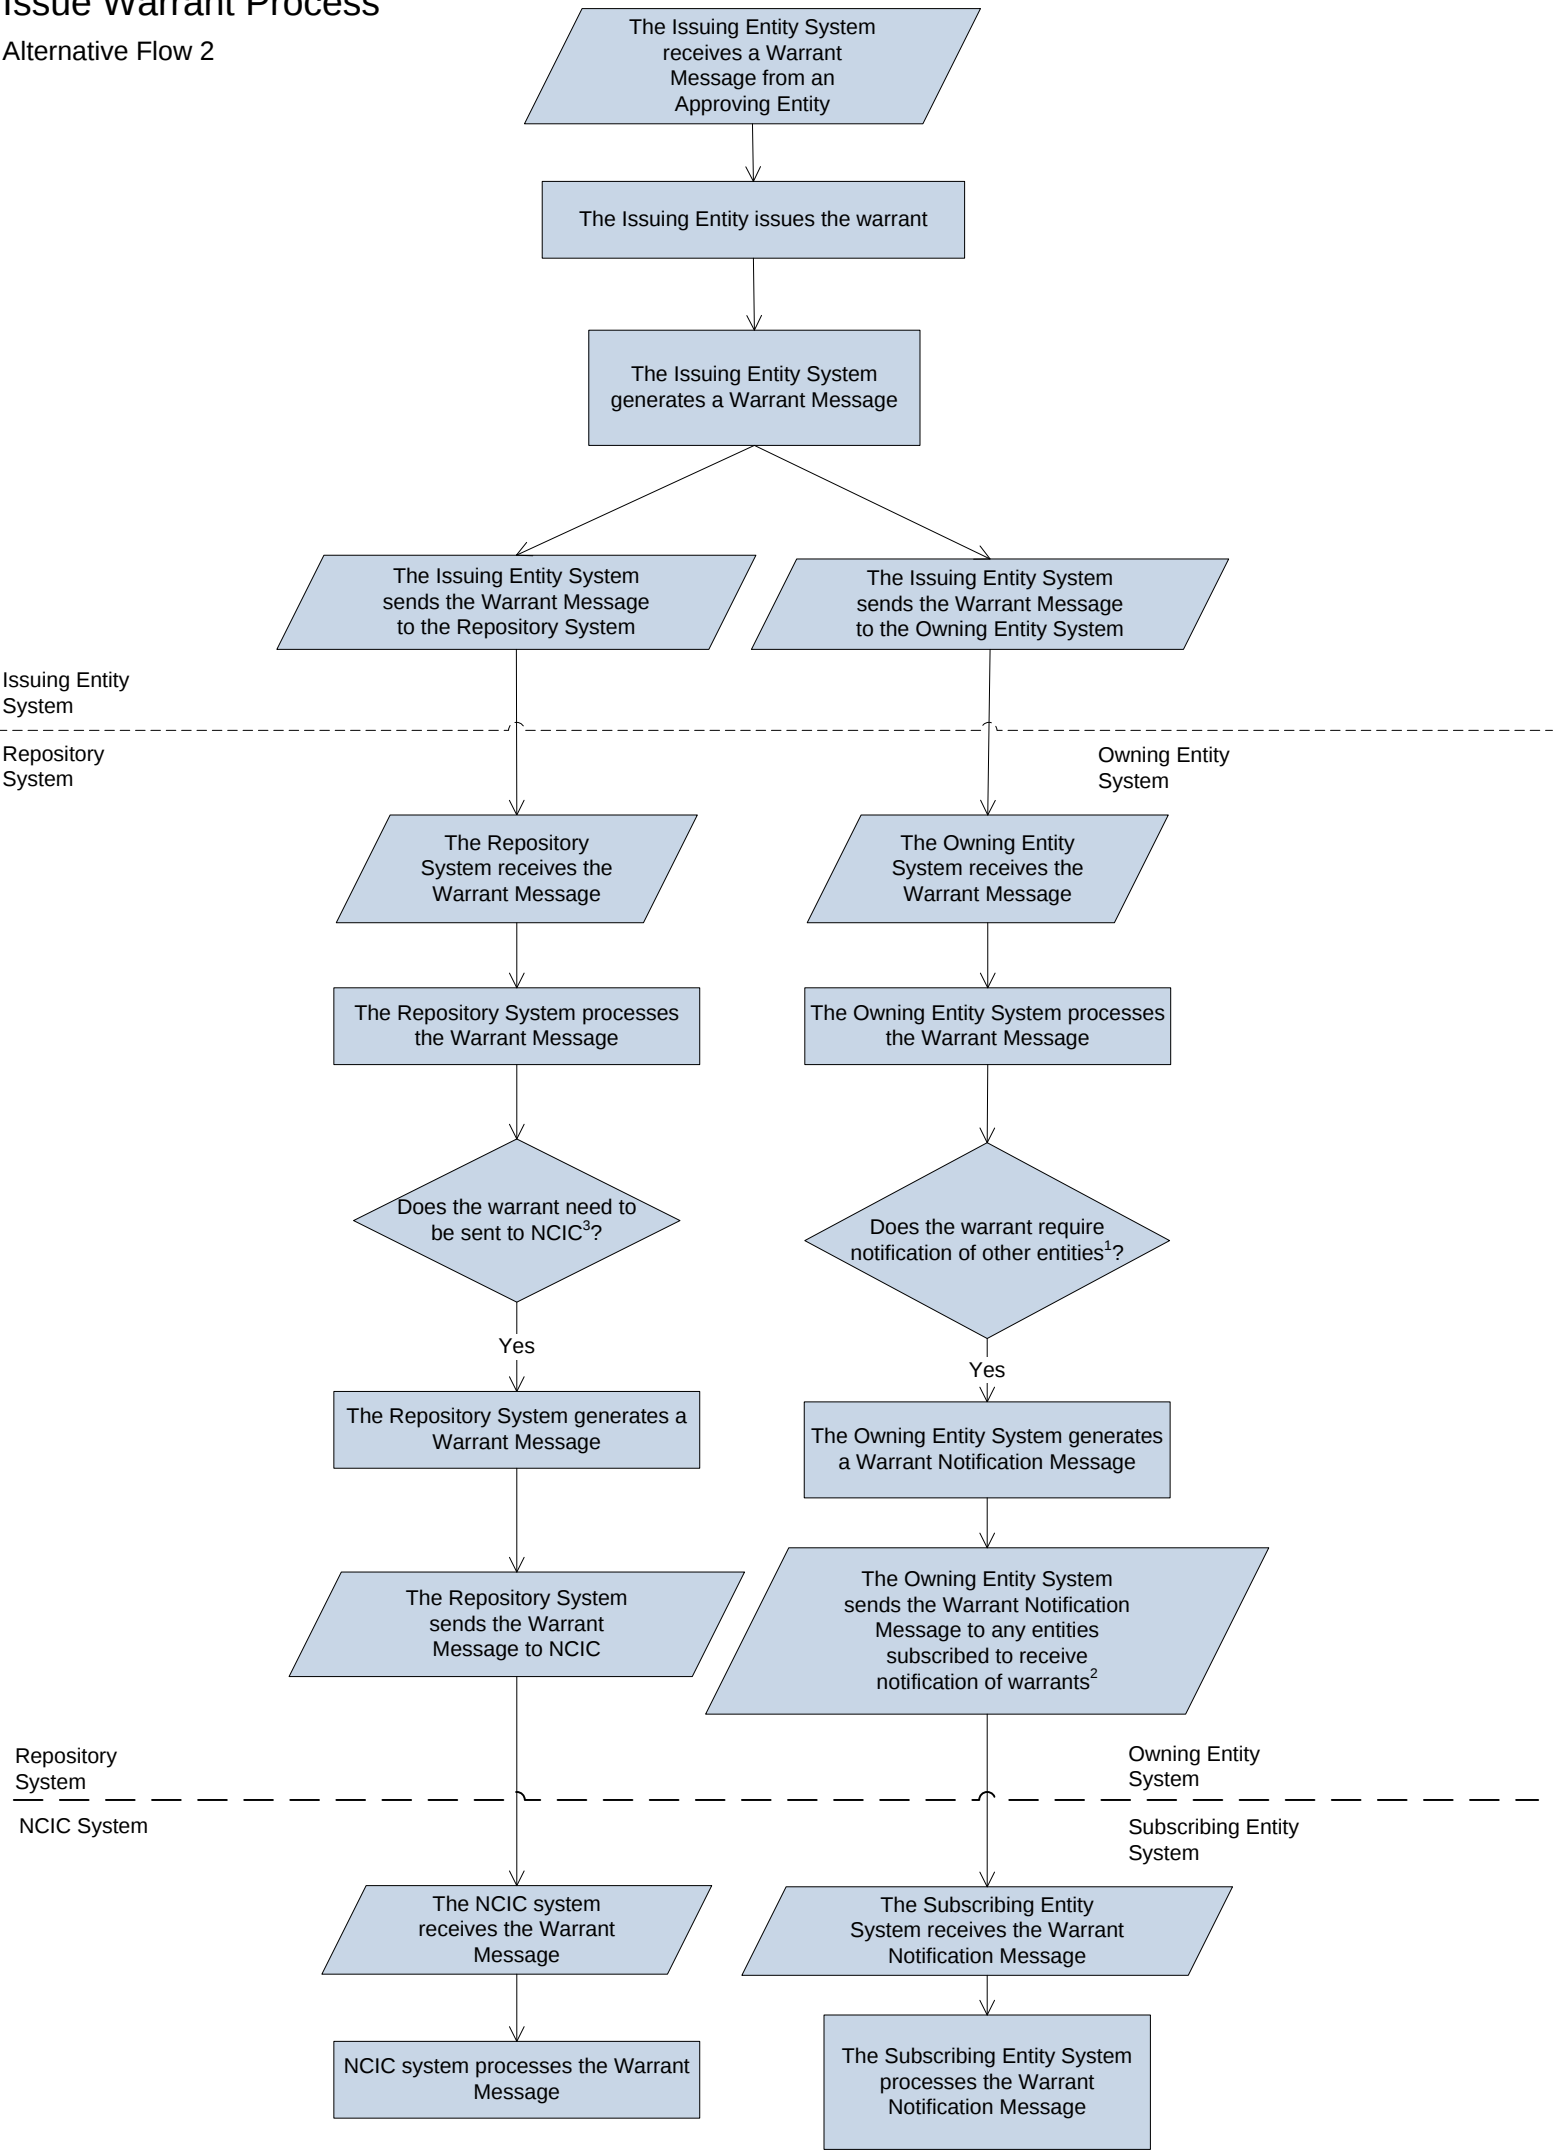

¹Which warrants will trigger a notification will depend on the jurisdiction, implementation, and the warrant itself.

²The entities to which warrant notifications are sent will vary by jurisdiction and implementation. For the purposes of this model any Entity that receives such notifications is referred to as a "Subscribing Entity."

³Not all warrants are sent to NCIC. Notification of warrant to NCIC will vary by the type of warrant, jurisdiction, and implementation.

Issue Warrant Process

Alternative Flow 2

¹Which warrants will trigger a notification will depend on the jurisdiction, implementation, and the warrant itself.

²The entities to which warrant notifications are sent will vary by jurisdiction and implementation. For the purposes of this model any Entity that receives such notifications is referred to as a “Subscribing Entity.”

³Not all warrants are sent to NCIC. Notification of warrant to NCIC will vary by the type of warrant, jurisdiction, and implementation.
