Frequently Asked Questions**

- 1. Does an Individual Applicant need to complete the SF 424 and the Certifications as part of the application, even if they don't seem to apply to me? What do I put in boxes under 6. EIN, 12. Areas Affected and 14. Congressional District?**

Yes, all applicants must sign the certifications as part of the application in order for it to be considered complete. All applicants must also complete the SF 424. On the 424, under 6, there is no need to provide an EIN since they are not an organization. You may have to provide your social security later if you are selected. On 12, Areas affected, provide: National. For 14, the Congressional District, you can either enter this as national or note the district where you live or work.
