Program Description

Overview

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

The BJA National Ashanti Alert Network Training and Technical Assistance Program will continue to build on the current training and technical assistance (TTA) program that was started in fiscal year (FY) 2020 to assist in the development and implementation of the National Ashanti Alert Network ("Network"). This TTA program will also assist BJA in completing the elements set forth in the Ashanti Alert Act for the development, implementation, and maintenance of this national alert system to assist with the reporting and location of missing adults over the age of 17. The program will also provide the report that the Attorney General will deliver to Congress as required by the act.

Statutory Authority

Any awards from this solicitation will be made under the FY 2021 appropriation for Public Law 116-260, 134 Stat. 1182, 1257.

Specific Information

This TTA program is specifically directed toward the development, implementation, and maintenance of the National Ashanti Alert Network as set forth in the Ashanti Alert Act, December 2018. The Ashanti Alert Act specifically requires the Department of Justice to institute a national alert system and report the progress to Congress on an annual basis. This reporting includes how the system has been implemented, statistics from the participating states, and the effectiveness of the ability to share this information.

As one of the development elements, in FY 2021, the TTA provider will continue developing the pilot phase and continue to expand the number of pilot states to include participation by tribal and territorial agencies. During this expansion, it will be possible to send a packet of information about a reported missing person from one state (or jurisdiction) across state lines to assist in the location and recovery of that person. When the system is used, it will capture the data automatically and be able to provide near real-time data for comparison purposes.

The TTA provider will also assist states in developing their state plans and make possible network equipment available, as needed. The TTA provider will also develop and maintain public information and awareness on a website to assist in the location of missing persons. In addition, the TTA provider will evaluate and determine the capabilities of emerging technologies to assist federal, state, local, tribal, and territorial agencies in locating missing adults because the Network is expected to work with other missing person programs to assist with the location of these missing adults.

When developing and communicating information about the National Ashanti Alert Network, it will be a priority for the successful applicant to provide guidance and protocols for coordination among law enforcement, fusion centers, other public safety agencies, and nonprofit organizations. The successful applicant will also be expected to work with BJA partners to develop resources available to agencies and the public to enhance the outcomes of missing person cases.

Applicants are expected to demonstrate effective collaboration and coordination with other organizations that provide TTA for programs focused on finding missing persons. This means working with professional organizations, federal agencies, educational institutions, and the private sector to develop tools that assist in finding missing persons. Applicants that do not currently have such partnerships in place should clearly and comprehensively describe how they will develop these partnerships to extend current national TTA capacity to implement a national, integrated, and collaborative TTA strategy.

Funds may not be used to provide TTA to federal agencies. However, to ensure the most cost-effective TTA is delivered to the field, attendance by federal officials in training classes is allowed at no charge if vacancies exist that cannot be filled by state, local, tribal, and territorial participants.

Goals, Objectives, Deliverables, and Timeline

The National Ashanti Alert Network Program is a continuation of the initial TTA program established in FY 2020. It is important that applicants clearly articulate how they will continue work that has already been started and continue the development and implementation of a comprehensive TTA program with regard to the Ashanti Alert Act. Applicants must explain how they will provide training and technical assistance to missing person programs, with regard to the Ashanti Alert Act, across the United States, and how they will accomplish this in partnership with federal agencies, educational institutions, professional organizations, and the private sector.

During the 18-month program period, the TTA provider will receive oversight and guidance from BJA, be required to achieve the following goals and objectives, and produce the following deliverables, including, but not limited to:

Goals

- Provide, under oversight and guidance from BJA, high-quality, cost-effective technical assistance to state, local, territorial, and tribal (SLTT) jurisdictions with regard to the National Ashanti Alert Network.
- Provide training to SLTT jurisdictions to help develop their programs, participate in the National Ashanti Alert Network, or develop public awareness education with the intent to reduce victimization.
- Continue to develop and expand the state pilot program.

Objectives

- Increase knowledge about the Network to SLTT missing person programs with the intent to have them either participate in the pilot program or submit an Ashanti Alert Plan to the Department of Justice.
- Improve SLTT programs' and communities' knowledge about the Ashanti Alert Act and Network.
- Increase the ability of SLTT agencies to share missing person information electronically with the intent to assist in locating missing adults.
- Provide regular communication to BJA that assesses the impact of the TTA services on the National Ashanti Alert Network Program.

Deliverables

- Compile and maintain the following:
 - A database of states' missing person programs and contacts
 - A summary of missing person legislation and policies from the states, territories, and tribes
- Develop and maintain a secure, public website to share information about missing persons with the public, and provide a methodology for SLTT programs to securely share information about missing person cases.
 - Assist BJA with the continued development and implementation of the National Ashanti Alert Network's pilot program and provide technical assistance to pilot participants, including providing some assistance with local costs associated with the pilot program's implementation.
- Create, maintain, and distribute materials and resources about the National Ashanti Alert Network, pilot program, and guidance for the development and submission of a state Ashanti Alert Plan.
- Assist with the coordination and facilitation of the Ashanti Alert Advisory Committee and the Ashanti Stakeholder Working Group to include correspondence, meetings, calls, and assistance to the members.
- Collect the required data from the state programs, as required by the Ashanti Alert Act. This data will assist BJA with drafting Ashanti Alert status and annual reports to be delivered by the Attorney General to Congress.

The Goals, Objectives, and Deliverables are directly related to the performance measures that demonstrate the results of the work completed, as discussed under the Application and Submission Information section.

Evidence-Based Programs or Practices

OJP strongly emphasizes the use of data and evidence in policymaking and program development in criminal justice, juvenile justice, and crime victim services. For additional information and resources on evidence-based programs or practices, see the [OJP Grant Application Resource Guide](#).

Information Regarding Potential Evaluation of Programs and Activities

OJP may conduct or support an evaluation of the programs and activities funded under this solicitation. For additional information, see the [OJP Grant Application Resource Guide](#) section entitled "Information Regarding Potential Evaluation of Programs and Activities."

Intergovernmental Review: This solicitation (“funding opportunity”) is not subject to [Executive Order 12372](#). (In completing the SF-424, an applicant is to answer question 19 by selecting the response that the “Program is not covered by E.O. 12372.”)

Standard Applicant Information (JustGrants 424 and General Agency Information)

The Standard Applicant Information section of the JustGrants application is pre-populated with the SF-424 data submitted in Grants.gov. Applicants will need to review the Standard Applicant Information in JustGrants and make edits as needed. Within this section, applicants will need to: add zip codes for areas affected by the project; confirm their Authorized Representative; and verify the organization's legal name and address.

Proposal Abstract

A proposal abstract (no more than 400 words) summarizing the proposed project including primary activities, products and deliverables, the service area, and who will benefit from the proposed project, will be completed in the JustGrants Web-based form.

Proposal Narrative

The proposal narrative should be submitted as an attachment in JustGrants. The attached document should be double-spaced, using a standard 12-point Times New Roman font; have no less than 1-inch margins; and should not exceed 10 pages. Pages should be numbered and submitted as an attachment. If the proposal narrative fails to comply with these length restrictions, BJA may negatively consider such noncompliance in peer review and final award decisions.

The following sections must be included as part of the proposal narrative:

a. Description of the Issue

Describe the specific issues that will be addressed through this TTA program. Describe the process used to assess or determine what these issues are and include the data and information used to identify and assess these issues. The Description of the Issue should demonstrate that the applicant understands the nature and dimension of the issues with regard to a national network.

a. Project Design and Implementation

- Describe the proposed TTA approach to address the identified issues and how positive outcomes will be evaluated.
- Explain the criminal justice context in which the issues exist and how the applicant is suited to address them within the context of the grant TTA program.
- Describe the current level of readiness to implement the proposed solution. Identify any issues or challenges related to implementation readiness and explain how these will be addressed through this TTA program.
- Explain how the identified evidence-based practices (or those practices requiring further study) will be identified and explored in partnership with BJA and other federal partners to encourage broader adoption of proven strategies.
- Identify additional resources necessary for successful program completion such as outside organizational partners, state or local practitioner groups, etc.

c. Capabilities and Competencies

Fully describe the capabilities of the applying entity to maintain this TTA program successfully and the ability to implement new elements of the program. The applicant should also provide the competencies of the staff assigned to the program and their specific role(s) in this TTA program.

d. Plan for Collecting the Data Required for this Solicitation's Performance Measures

Describe the process for measuring program performance. Identify who will collect the data, who is responsible for performance measurement, and how the information will be used to guide and evaluate the impact of the program. Describe the process to accurately report implementation findings and, specifically, the impact of the solution on criminal justice operational practices. Applicants should identify and describe both the outputs and outcomes they anticipate as a

result of their proposed implementation strategy and a process for measuring them.

Note: Applicants are **not** required to submit performance data with the application. Rather, performance measures information is included as an alert that successful applicants will be required to submit performance data as part of the reporting requirements under an award.

OJP will require each successful applicant to submit regular performance data that demonstrate the results of the work carried out under the award. The performance data directly relate to the goals, objectives, and deliverables identified under “Goals, Objectives, and Deliverables.”

Application Review Information

Review Criteria

a. Merit Review Criteria

Applications that meet basic minimum requirements will be evaluated by peer reviewers. Applications will be evaluated on how the proposed project/program addresses the following criteria:

1. Description of the Issue (20%) - evaluate the applicant's understanding of the program/issue to be addressed.

2. Project Design and Implementation (40%) - evaluate the adequacy of the proposal, including the goals, objectives, timelines, milestones, and deliverables.
3. Capabilities and Competencies (20%) - evaluate administrative and technical capacity of the applicant to successfully accomplish the goals and objectives.
4. Plan for Collecting the Data Required for this Solicitation's Performance Measures (5%) - evaluate the applicant's understanding of the performance data reporting requirements and the plan for collecting the required data.
5. Budget (15%) - evaluate for completeness, cost effectiveness, and allowability (e.g., reasonable, allocable, and necessary for project activities).

b. Other Review Criteria/Factors

Other important considerations for BJA include geographic diversity, strategic priorities, available funding, past performance, ability to work with other entities in this field, cooperation with federal agencies, partnerships with institutions of higher learning, ability to provide TTA services both in person and online on a nationwide basis, ability to serve all agencies no matter the size or location, and the extent to which the Budget Worksheet and Budget Narrative accurately explain project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

Review Process

Applications submitted under this solicitation that meet basic minimum requirements will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the stated review criteria above.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting peer review. Although specific requirements may vary, the following are common requirements applicable to all solicitations for funding under OJP programs:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet the basic minimum requirements.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among other things to help assess whether an applicant that has one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed \$250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

Important note on FAPIIS: An applicant may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider any such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General, who may take into account not only peer review ratings and BJA's recommendations, but also other factors as indicated in this section.
