

The costs of such equipment, technology, services, and personnel must be reasonable and proportional to the proposed programmatic elements.

### **Entity Definitions, Roles, and Applicable Definitions Unique to this Solicitation**

This initiative will provide funding to support the development, implementation, and practical tracking of violent crime reduction efforts across a diverse cross-section of rural settings and violent crime problem types. The scope of the violent crime problems should be clearly articulated in the applicant's proposal. Such description may include describing the rural crime problem using relevant metric(s) that can be assessed in terms of change at the conclusion of the grant period. These metrics may focus on the number of incidents or crime victimization rates. Other measures of violent crime impacts, such as measures of social harms and adverse economic impacts, may also be relevant.

The applicant should demonstrate an understanding of incorporating before-and-after comparisons in assessing the implemented crime reduction strategies, although there is no requirement for a formal process or outcome evaluation. If a more formal assessment is proposed, individuals or organizational units, whether internal or external to the applying entity, should be identified and their qualifications should be documented (e.g., résumés attached as part of the application). Applicants should acknowledge and describe their willingness to cooperate with the TTA provider that will be selected to work with the site-based grantees.

### **Rural Area Definition Applicable to this Solicitation**

A "rural law enforcement agency," as defined under this initiative, is: (a) one serving any area or community, no part of which is within an area designated as a standard metropolitan statistical area by the Office of Management and Budget, (b) any agency serving one or more rural census tracts, or (c) any federally recognized Indian tribe that is operating in full or in part in rural areas. The population served by any municipality (e.g., town, village, or borough) must not exceed 15,000, based on the latest U.S. Census enumeration.

Applicants will need to state in their applications that they qualify and meet this definition. An applicant's acknowledgment that it and the proposed work are consistent with this definition should be included in the proposal abstract and discussed in detail within the proposal narrative.

### **Defining the Scope of Violent Rural Crime Problem**

This grant opportunity may be used to support rural violent crime reduction programs that are either jurisdiction wide, affect a specific area or areas within the jurisdiction (i.e., place based), or are related to particular subpopulations (e.g., vulnerable victims or high-risk groups for offending). For each violent crime problem identified, applicants should be clear in describing whether the problem is jurisdiction wide, place based, or population based. Applicants should also make an effort to describe the impact of the violent crime problems using metrics such as count, rates, or level of social harm, as appropriate.

Applicants may reference the publication [Conversation with Rural Law Enforcement Leaders](#) as they develop the scope of the rural crime violence problem. Unique law enforcement considerations discussed in this document include rural violence associated with drug addiction, job loss and other social stressors, and illicit human, gun, and drug trafficking. In addition, recent data suggest that homicides, nonfatal shootings, domestic violence, and intrafamilial violence may have increased due to stressors related to the COVID-19 pandemic.

### **Allowable and Unallowable Expenditures**

This initiative is intended to assist in the development, implementation, and assessment of long-term, sustainable strategic solutions that are evidence based and tailored to local violent crime problems experienced in rural areas. It is not intended to support short-term tactical responses (such as crime sweeps), surveillance technology purchases, or tactically focused operations (such as funding task forces).

Examples of equipment and services that would **not be funded** under this initiative include firearms, ammunition, vehicles, electronic control devices, and general overtime pay (e.g., for extended normal operations). Equipment and services that are integral and directly relate to the proposed violence reduction strategies are allowable, provided that they are reasonable and commensurate in cost to the scale of the program.

Examples of allowable costs for equipment and services include, but are not limited to:

- Crime analysis software or personnel.
  - Salary or overtime expenditures for personnel integral to violent crime reduction operations.
  - Consultation services related to program design, implementation, and assessment.
- Development or acquisition of offender-based risk assessment tools to better target investigation,

intervention, or enforcement.

- Development or acquisition of software, assessment tools, or services to better serve, protect, and communicate with victims and populations vulnerable to victimization.
- Forensic evidence tools and services for identifying suspects or enhancing evidence, testimony, and outreach to victims.
- Strategies to more effectively serve and address populations in remote areas, including ways to enhance orders of protection and improve access to services and shelter for remote populations.
- Strategies and services to mitigate the risk for violent behavior in individuals dealing with mental health and/or substance use disorders, including crisis intervention programs and services.
- Strategies, personnel, services, and tools to improve intragovernmental collaboration in effectively addressing rural violence problems. These efforts could include data sharing efforts or coordinating councils involving service providers, prosecutors' offices, community stakeholder groups, child protective services, treatment courts, corrections agencies, and other community stakeholders.

## **Goals, Objectives, Deliverables, and Timeline**

### **Goals**

#### **Goals**

The goals of this initiative are to develop, implement, and assess strategies that reduce rural violence through identification of programs and approaches that are innovative, targeted, and adaptable.

#### **Objectives**

Successful applicants will be expected to meet the following objectives:

- Deploy agency resources such as personnel, services, or analytical tools that they identified in their proposals. Appropriate documentation should be provided in the proposals about the utility of these resources in addressing rural crime.
- Document how personnel and resources will be used in furtherance of their crime reduction strategies. They must describe how they will deploy funded resources (e.g., services, personnel, software, or equipment) and how that will be reported to BJA on a semi-annual basis.
- Track their outcomes to determine if the violent crime reduction strategy (or strategies) have had an impact once implemented. This tracking objective will be accomplished with the assistance of the TTA provider selected to work with the site-based entities.

#### **Deliverables**

Successful applicants will be expected to deliver on the following:

- Document the development and implementation of strategies to reduce the violent crime problem or problems identified in their applications. These program descriptions should be memorialized in official agency documents and in a manner consistent with professional standards. Relevant agency policies and procedural manuals should be developed and/or updated as necessary.
- Commit to measuring violent crime outcomes before and after the implementation of the crime reduction strategies. This outcomes tracking should be commensurate with the funding amount requested and appropriate for the scope and nature of the underlying problem. The format used may be similar to that involved in the SARA model (scanning, analysis, response, and assessment) of problem-solving. Assistance from a qualified TTA provider will be available to the site-based grantees for the development and implementation of the problem-solving strategies and other efforts to track crime reduction outcomes. More information about the SARA model can be found [here](#).

The assessment should be documented in a format that is suitable for sharing within the agency, with

outside agencies that might want to adapt the strategy, and with the TTA provider for inclusion in a report summarizing findings across the grant sites.

The Goals, Objectives, and Deliverables are directly related to the performance measures that demonstrate the results of the work completed, as discussed under Application and Submission Information.

### **Evidence-Based Programs or Practices**

OJP strongly emphasizes the use of data and evidence in policymaking and program development in criminal justice, juvenile justice, and crime victim services. For additional information and resources on evidence-based programs or practices, see the [OJP Grant Application Resource Guide](#).

### **Information Regarding Potential Evaluation of Programs and Activities**

OJP may conduct or support an evaluation of the programs and activities funded under this solicitation. For additional information, see the [OJP Grant Application Resource Guide](#) section entitled "Information Regarding Potential Evaluation of Programs and Activities."

### **OJP Priority Areas**

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community. In FY 2021, OJP will give priority consideration in award decisions to applications that demonstrate ways in which their projects will advance one or more of these areas.

To receive priority consideration for advancing one or more of the Department's priorities, the applicant must provide a sufficient narrative explanation as an attachment that specifies how the project will advance the promotion of civil rights, access to justice, support to crime victims, protecting the public from crime and evolving threats, or building trust between law enforcement and the community.

In addition, OJP will give priority consideration, if applicable, to applicants that demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent-poverty counties.

To receive priority consideration under the poverty priority, the applicant must provide information to demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent-poverty counties. For purposes of this priority consideration, the term "high-poverty area" means any census tract with a poverty rate of at least 20 percent as measured by the 2013–2017 5-year data series available from the American Community Survey of the Census Bureau (applicants may search by census tract at <https://www.census.gov/acs/www/data/data-tables-and-tools/narrative-profiles/2017/>) and the term "persistent-poverty counties" means any county that has had 20 percent or more of its population living in poverty over the past 30 years, as measured by the 1990 and 2000 decennial censuses and the most recent Small Area Income and Poverty Estimates (applicants may search by county at <https://www.census.gov/data/tables/time-series/dec/census-poverty.html> and at <https://www.census.gov/programs-surveys/saipe.html>).

Priority consideration is one of many factors that OJP considers in making funding decisions and is not a guarantee of an award.

Budget narratives should demonstrate generally how applicants will maximize cost effectiveness of grant expenditures. Budget narratives should demonstrate cost effectiveness in relation to potential alternatives and the objectives of the project. The funds awarded under this initiative may not be used for land acquisition or construction projects, and may not be used to purchase firearms, ammunition, armored vehicles, or other tactical equipment used strictly for enforcement purposes.

### **Information to Complete the Application for Federal Assistance (SF-424)**

The SF-424 will be submitted in Grants.gov. The SF-424 is a required standard form used as a cover sheet for submission of pre-applications, applications, and related information. See the [OJP Grant Application Resource Guide](#) for additional information on completing the SF-424.

In Section F of the SF-424, please include the name and contact information of the individual **who will complete application materials in JustGrants**. JustGrants will use this information (*email address*) to assign the application to this user in JustGrants.

**Intergovernmental Review:** This solicitation (“funding opportunity”) is **not** subject to [Executive Order 12372](#). (In completing the SF-424, an applicant is to answer question 19 by selecting the response that the “Program is not covered by E.O. 12372.”)

### **Standard Applicant Information (JustGrants 424 and General Agency Information)**

The Standard Applicant Information section of the JustGrants application is pre-populated with the SF-424 data submitted in Grants.gov. Applicants will need to review the Standard Applicant Information in JustGrants and make edits as needed. Within this section, applicants will need to: add zip codes for areas affected by the project; confirm their Authorized Representative; and verify the organization's legal name and address.

### **Proposal Abstract**

A proposal abstract (no more than 400 words) summarizing the proposed project including primary activities, products and deliverables, the service area, and who will benefit from the proposed project, will be completed in the JustGrants Web-based form.

Proposal abstracts should:

- Be written for a general public audience.
- Be submitted as a separate attachment with “Proposal Abstract” as part of its file name.
- Be single-spaced, using a standard 12-point Times New Roman font with 1-inch margins.
- Affirm that the applicant qualifies under the definition of rural as defined in this solicitation.

### **Proposal Narrative**

The proposal narrative should be submitted as an attachment in JustGrants. The attached document should be double-spaced, using a standard 12-point Times New Roman font; have no less than 1-inch margins; and should not exceed 10 pages. Pages should be numbered and submitted as an attachment. If the proposal narrative fails to comply with these length restrictions, BJA may negatively consider such noncompliance in peer review and final award decisions.

The following sections must be included as part of the proposal narrative:

a. Description of the Issue OR Statement of the problem if research is involved

This section should answer the question: What is the rural violent crime problem or problems that the applicant is trying to address? Applicants must identify one or more violent crime problems that have had an impact in their jurisdiction or with the population they serve. The scope and impact of the program should be described in quantifiable terms as much as possible. Applicants should define the baseline level of violent crime against which they can assess potential reductions that would result in the proposed violence intervention(s).

b. Project Design and Implementation

This section should answer the question: How does the applicant propose to address the identified rural violent crime

problem(s)? Describe any planned interventions or programmatic enhancements that are proposed to address the jurisdiction's violent crime problem(s). Applicants need not select a predefined intervention strategy; however, if an established violence reduction approach (e.g., hotspots policing or focused deterrence) is selected, the rationale for applying it to the jurisdiction's problem should be addressed. Applicants may propose multiple approaches or a problem-solving analysis process to identify and select from alternate solutions. Applicants should describe the baseline (e.g., crime count or victimization rate) as it exists at the time of application. The applicant should also address the harm or social cost the problem is having on the community and the applicant entity, as well as how to mitigate that harm.

#### c. Capabilities and Competencies

Fully describe the applicant's capabilities to implement the proposed program and the competencies of the staff assigned to program tasks and/or overseeing the program. Identify the personnel who are critical to the program's successful implementation and discuss their roles, responsibilities, and qualifications. Discuss the organizational capabilities or competencies that will directly impact the applicant's ability to successfully implement the proposed problem-solving program. The applicant entity should also provide a description of any additional capacity in terms of personnel, services, or equipment it proposes to use to address the violent crime problem. The applicant should describe how it will work with partners and stakeholders that are affected by the violent crime problem or are part of the intervention strategy.

#### d. Plan for Collecting the Data Required for this Solicitation's Performance Measures

OJP will require each successful applicant to submit regular performance data that demonstrate the results of the work carried out under the award. The performance data directly relate to the objectives and deliverables identified under "Objectives and Deliverables" in the Program Description.

## Application Review Information

### Review Criteria

Applications that meet basic minimum requirements will be evaluated by peer reviewers. Applications will be evaluated on how the proposed project/program addresses the following criteria:

1. Statement of the Problem/Description of the Issue (10%) - evaluate the applicant’s understanding of the program/issue to be addressed.
2. Project Design and Implementation (35%)- evaluate the adequacy of the proposal, including the goals, objectives, timelines, milestones, and deliverables.
3. Capabilities and Competencies (25%) - evaluate administrative and technical capacity of the applicant to successfully accomplish the goals and objectives.
4. Plan for Collecting the Data Required for this Solicitation’s Performance Measures (20%) - evaluate the applicant’s understanding of the performance data reporting requirements and the plan for collecting the required data.
5. Budget (10%) - evaluate for completeness, cost effectiveness, and allowability (e.g., reasonable, allocable, and necessary for project activities).

### Other Review Criteria/Factors

Other important considerations for BJA include geographic diversity, strategic priorities (specifically including, but not limited to, those mentioned above relating to priority areas), available funding, past performance, and the extent to which the Budget Worksheet and Budget Narrative (web-based form) accurately explain project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

### Review Process

Applications submitted under this solicitation that meet basic minimum requirements, will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the stated review criteria above.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting peer review. Although specific requirements may vary, the following are common requirements applicable to all solicitations for funding under OJP programs:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet the basic minimum requirements.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among other things to help assess whether an applicant that has one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed \$250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

**Important note on FAPIIS:** An applicant, may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider any such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General, who may take into account not only peer review ratings and BJA's recommendations, but also other factors as indicated in this section.
