BJA FY 21 The Kevin and Avonte Program: Reducing Injury and Death of Missing Individuals with Dementia and Developmental Disabilities

Overview
The U.S. Department of Justice (DOJ), Office of Justice Programs (OJP), Bureau of Justice Assistance (BJA) is seeking applications for funding to reduce the number of deaths and injuries of individuals with forms of dementia such as Alzheimer’s disease or developmental disabilities such as autism who, due to their condition, wander from safe environments. This program furthers the Department’s mission by providing funding to law enforcement and other public safety agencies to implement locative technologies that track missing individuals, and it provides funding to such agencies and partnering nonprofit organizations to develop or operate programs to prevent wandering, increase vulnerable individuals’ safety, and facilitate rescues.

This solicitation incorporates the OJP Grant Application Resource Guide by reference. The OJP Grant Application Resource Guide provides guidance to applicants on how to prepare and submit applications for funding to OJP. If this solicitation expressly modifies any provision in the OJP Grant Application Resource Guide, the applicant is to follow the guidelines in this solicitation as to that provision.

Program Description

Overview
The Kevin and Avonte Program: Reducing Injury and Death of Missing Individuals with Dementia and Developmental Disabilities supports local jurisdictions’ efforts to reduce the number of deaths and injuries of individuals with forms of dementia such as Alzheimer’s disease or developmental disabilities such as autism who, due to their condition, wander from safe environments. It provides funding to law enforcement and public safety agencies to implement locative technologies to track missing individuals, and to such agencies and partnering nonprofit organizations to develop or operate programs to prevent wandering, increase individuals’ safety, and facilitate rescues.

Statutory Authority
34 U.S.C. 12621

Specific Information
Kevin and Avonte’s Law, enacted in 2018, authorized BJA to support local efforts to address this public safety challenge by providing grants to health care agencies, law enforcement, and other public safety agencies, and, additionally for Category 1, nonprofit organizations that (1) implement locative technologies to track missing individuals, and/or (2) develop or operate programs to prevent wandering, increase individuals’ safety, and facilitate rescue.

Note that BJA will give preference to applicants that employ person-centered approaches that minimize restrictive interventions and provide a direct link to individuals, and families of individuals, with forms of dementia such as Alzheimer’s disease or developmental disabilities such as autism.

Category 1 supports health care agencies, law enforcement, other public safety agencies, and nonprofit organizations to develop holistic approaches designed to prevent and respond effectively to the wandering of individuals with forms of dementia such as Alzheimer’s disease or children with developmental disabilities such as autism.

Category 2 supports health care agencies, law enforcement, and other public safety agencies in the purchase of tracking technology designed to locate and recover individuals with forms of dementia such as Alzheimer’s disease or children with developmental disabilities such as autism in the event they wander from safe environments.

All applicants should be aware that under federal law, OJP may not award grant funds to procure or obtain any equipment, system, or service that uses “covered telecommunications equipment or services” as a substantial or essential component of any system, or as critical technology as part of any system. In general, with limited exceptions, “covered telecommunications equipment or services” includes telecommunications and video
surveillance equipment or services produced by a foreign entity that is specifically designated by statute, or designated by the federal government pursuant to statute.

Applicants also should be aware that, in accordance with DOJ and OJP policy, and with few exceptions, OJP will prohibit use of award funds for unmanned aircraft systems (UAS), absent advance submission of specific documentation of protections in place for privacy, civil liberties, and public safety, and of mitigation of cybersecurity risks. In addition, OJP will bar use of award funds for the purchase or use of UAS made by certain foreign entities designated by DOJ.

Goals, Objectives, Deliverables, and Timeline

Goals

The goal of the program is to support local jurisdictions’ efforts to reduce the number of deaths and injuries of individuals with forms of dementia such as Alzheimer’s disease or developmental disabilities such as autism who, due to their condition, wander from safe environments, through the implementation of proactive programs and the acquisition of locative technology.

Objectives

Category 1: The objective is to design, establish, or operate holistic, locally based, proactive programs to locate or prevent the wandering of individuals with forms of dementia such as Alzheimer’s Disease, or developmental disabilities such as autism, who, due to their condition, wander from safe environments.

Category 2: The objective is to purchase, develop, or implement locally based tracking technology for individuals with forms of dementia such as Alzheimer’s Disease or developmental disabilities such as autism, who, due to their condition, wander from safe environments.

Deliverables

Category 1:

1. Increase public awareness of missing persons with Alzheimer’s disease and other forms of dementia or developmental disabilities.

2. Provide prevention and response information, including online training resources, and referrals to families or guardians of individuals who, due to their condition, wander from a safe environment.

3. Establish or expand community partnerships among local law enforcement, other public safety agencies, and the communities they serve in an effort to prevent persons with forms of dementia or developmental disabilities from wandering, and to locate them in the event they go missing.

4. Provide education and training, including online training resources, to first responders, school personnel, clinicians, and the public in order to:
   a. Ensure safety and reduce the incidence of wandering of persons with dementia or developmental disabilities.
   b. Facilitate the rescue and recovery of individuals who wander from safe environments.
c. Recognize and respond appropriately to individuals who wander from safe environments.

5. Provide prevention and response training and emergency protocols to school administrators, school staff, and families or guardians of individuals with dementia or developmental disabilities to help reduce or prevent the risk of wandering by such individuals.

6. Develop, operate, or enhance a notification system that generates alerts, advisories, or other information for the recovery of missing individuals with dementia or developmental disabilities.

Category 2:

1. Partner with health care agencies or state or local public safety agencies in the design and establishment of locative technology. Applicants should include letters of support and/or memorandums of understanding to demonstrate the intent to partner with these agencies. Note:
   a. Any collection, use, and retention of data under this program is solely for the purpose of preventing injury or death of a person assigned a tracking device.
   b. Participation in this program must remain entirely voluntary for participants. A guardian or parent shall make any decisions about whether or not to accept a tracking device for an individual.
   c. Create public awareness and outreach plans for the tracking program and practices.

2. Participate and assist in any OJP efforts to develop standards and best practices for the use of noninvasive and nonpermanent tracking devices that a guardian or parent has determined to be the least restrictive alternative to locate individuals.

The Goals, Objectives, and Deliverables are directly related to the performance measures that demonstrate the results of the work completed, as discussed under Application and Submission Information.

Evidence-Based Programs or Practices
OJP strongly emphasizes the use of data and evidence in policymaking and program development in criminal justice, juvenile justice, and crime victim services. For additional information and resources on evidence-based programs or practices, see the OJP Grant Application Resource Guide.

Information Regarding Potential Evaluation of Programs and Activities
OJP may conduct or support an evaluation of the programs and activities funded under this solicitation. For additional information, see the OJP Grant Application Resource Guide section entitled “Information Regarding Potential Evaluation of Programs and Activities.”
OJP Priority Areas
In FY 2021 and in addition to executing any program-specific prioritization that may be applicable, OJP will give priority consideration to applications as follows:

- Applications that address specific challenges that rural communities face.
- Applications that demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent-poverty counties.
- Applications that offer enhancements to public safety in economically distressed communities (Qualified Opportunity Zones).

To receive priority consideration under the rural priority, applicants must describe what makes the geographic service area rural (using U.S. Census or other appropriate government data; for assistance, applicants may wish to refer to https://www.census.gov/programs-surveys/geography/guidance/geo-areas/urban-rural.html), how isolated the area is from needed services, and how they will address specific challenges in rural communities.

To receive priority consideration under the poverty priority, the applicant must provide information to demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent poverty counties. For purposes of this priority consideration, the term “high-poverty area” means any census tract with a poverty rate of at least 20 percent as measured by the 2013–2017 5-year data series available from the American Community Survey of the Census Bureau (applicants may search by census tract at https://www.census.gov/acs/www/data-tables-and-tools/narrative-profiles/2017/) and the term “persistent poverty counties” means any county that has had 20 percent or more of its population living in poverty over the past 30 years, as measured by the 1990 and 2000 decennial censuses and the most recent Small Area Income and Poverty Estimates (applicants may search by county at https://www.census.gov/data/tables/time-series/dec/census-poverty.html and at https://www.census.gov/programs-surveys/saipe.html).

To receive priority consideration under the Qualified Opportunity Zones priority, applicants must include information that specifies how the project will enhance public safety in the specified QOZs. For resources on QOZs, and for a current list of designated QOZs, see the U.S. Department of the Treasury’s resource webpage, accessible at https://www.cdfifund.gov/pages/opportunity-zones.aspx

OJP policy priority consideration will consist of receiving additional points in the application scoring process. Receipt of priority consideration does not guarantee that an application will be funded; nor will the failure to receive priority consideration necessarily mean that an application will not be funded.

To become certified, the law enforcement agency must meet two mandatory conditions: (1) the agency’s use of force policies adhere to all applicable federal, state, and local laws; and (2) the agency’s use of force policies prohibit chokeholds except in situations where use of deadly force is allowed by law. The certification requirement also applies to law enforcement agencies receiving DOJ discretionary grant funding through a subaward. For detailed information on this new certification requirement, please visit https://cops.usdoj.gov/SafePolicingEO to access the Standards for Certification on Safe Policing for Safe Communities, Implementation Fact Sheet, and List of Designated Independent Credentialing Bodies.

All recipients and subrecipients (including any for-profit organization) must forgo any profit or management fee.

   - Describe the specific problem in the applicant’s geographic area.
   - Include data and information that have been used to identify and assess the problem, which demonstrate that the applicant understands the nature and dimension of the problem.
   - Any statistics or references used in this section should be those gathered and documented for the applicant’s specific geographic area. No national statistics or
references should be used unless they specifically reference the applicant.

- Identify current vulnerabilities resulting from an absence of training for law enforcement or community members.

2. Project Design and Implementation (40%)- evaluate the adequacy of the proposal, including the goals, objectives, timelines, milestones, and deliverables.

- Describe how the applicant will deliver the proposed project.
- Describe how the applicant will appropriately use a person-centered approach that minimizes restrictive interventions and employs a direct link to individuals and families of individuals with forms of dementia such as Alzheimer’s disease or developmental disabilities such as autism.
- Detail how the applicant will achieve the deliverables listed in the Project-specific Information section. Describe the objectives and identify strategies for designing and achieving each program deliverable as described.
- Provide specific information on any materials/deliverables to be developed and delivered.
- Describe all partners included in the proposed activities and their roles.
- Describe the implementation plan for the locative tracking technology program for individuals with forms of dementia such as Alzheimer’s disease or children with developmental disabilities such as autism who have wandered from safe environments, if funds are requested for such. Describe partnerships with health care agencies or state or local public safety agencies to assist in the design and implementation of this technology program.

3. Capabilities and Competencies (25%) - evaluate administrative and technical capacity of the applicant to successfully accomplish the goals and objectives.

5. Budget (10%) - evaluate for completeness, cost effectiveness, and allowability (e.g., reasonable, allocable, and necessary for project activities).

- Submit a budget that is complete, cost effective, and allowable (e.g., reasonable, allocable, and necessary for project activities).
- The budget narrative should generally demonstrate how the applicant will maximize cost effectiveness of grant expenditures. It should explain how costs are intended to meet the objectives of the project and show all calculations.
- The budget narrative should demonstrate cost effectiveness in relation to potential alternatives and the objectives of the project. (Generally speaking, a reasonable cost is a cost that, in its nature or amount, does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision was made to incur the costs.)
- Applicants must set aside an adequate amount of funding to implement a data collection plan using the performance measures.
- Applicants must set aside an adequate amount of funding for travel of up to two staff members to one grantee meeting in Washington, D.C.

Additional Review Criteria

Other important considerations for BJA include geographic diversity, strategic priorities (specifically including, but not limited to, those mentioned above relating to addressing specific challenges that rural communities face, high-poverty areas or persistent-poverty counties, demonstrable potential enhancement to public safety in one or more federally designated Qualified Opportunity Zones), available funding, past performance, and the extent to which the Budget Worksheet and Budget Narrative (Web-based Form) accurately explain project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

Review Process

Applications submitted under this solicitation that meet basic minimum requirements, will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the stated review criteria above.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting peer review. Although specific requirements may vary, the following are common requirements applicable to all solicitations for funding under OJP programs:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet the basic minimum requirements.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among other things to help assess whether an applicant that has one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed $250,000 in federal funds, OJP also must
review and consider any information about the applicant that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

Important note on FAPIIS: An applicant, may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider any such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General, who may take into account not only peer review ratings and BJA recommendations, but also other factors as indicated in this section.
