Program Description

Overview
The Intellectual Property Enforcement Program (IPEP) is designed to improve the capacity of state, local, tribal, and territorial criminal justice systems to address intellectual property (IP) enforcement, including prosecution, prevention, and training and technical assistance. Awards will support law enforcement agencies that have an IP enforcement task force or plan to create one. These task forces will collaborate with relevant state, local, territorial, tribal, and federal agencies, including their local U.S. Attorney's Office (USAO), to fulfill program goals.

Statutory Authority
Any awards under this solicitation would be made under statutory authority provided by a full-year appropriations act for FY 2021. As of the writing of this solicitation, the Department of Justice is operating under a short-term "Continuing Resolution"; no full-year appropriation for the Department has been enacted for FY 2021.

Specific Information
The BJA Intellectual Property Enforcement Program: Protecting Public Health, Safety and the Economy from Counterfeit Goods and Product Piracy program is specifically designed to support the Department's mission to investigate and prosecute intellectual property crimes. This will be accomplished by assisting state, local and tribal jurisdictions to build partnerships with federal agencies and prosecutors. This program will also work to prevent and reduce intellectual property theft and related crimes through community and buyer awareness. IPEP includes an educational component to assist uninformed buyers in determining the authenticity of seemingly legitimate websites that instead deceive consumers into purchasing counterfeit goods.

Goals, Objectives, Deliverables, and Timeline

Goals
The goals of this program is to improve coordination of intellectual property (IP) enforcement efforts among federal, state, and local authorities contributes to the Department’s priority of reducing crime. These efforts shall include aggressive investigating and prosecuting a wide range of IP crimes, with a particular focus on: (1) public health and safety; (2) theft of trade secrets and economic espionage; and (3) large-scale commercial counterfeiting and piracy.

This coordination will include IP task force members and federal agencies meetings to update, discuss, and collaborate on IP investigations, prosecutions, training, and public awareness activities. The information to be shared through these task forces must include information about targeting, investigation, analysis, and prosecution of matters involving IP crimes as it relates to violations of state and local criminal statutes and federal prosecutions.

Objectives
Applicants must propose to achieve improved coordination of IP enforcement efforts among federal, state, and local authorities in their jurisdictions, thereby contributing to the Department’s priority of reducing crime. Specifically, they must propose to aggressively investigate and prosecute IP crimes, with a particular focus on:

1. public health and safety;
2. theft of trade secrets and economic espionage; and
3. large-scale commercial counterfeiting and piracy.
Projects funded under this solicitation shall:

- establish and/or enhance state, local, tribal, or territorial IP enforcement task forces;
- engage federal agencies as part of the task force or information-sharing practice (including, where appropriate, local offices of the Federal Bureau of Investigation (FBI), U.S. Immigration and Customs Enforcement’s Homeland Security Investigation (ICE HSI), the U.S. Postal Inspection Service (USPIS), and the USA;
- show possible IP links to organized crime, criminal gangs, and/or drug trafficking;
- identify IP thefts in the areas of trade secrets, health, and safety; and commercial online piracy and counterfeiting;
- conduct quarterly meetings of the task force members to update, discuss, and collaborate on IP investigations, prosecutions, training, and public awareness activities (a detailed plan for this must be documented in the attached timeline); and provide to all relevant partners documented information about targeting, investigation, analysis, and prosecution of matters involving IP crimes as it relates to violations of state and local criminal statutes.

**Deliverables**

Establish or expand existing IP enforcement task forces comprising state, local, tribal, territorial, or campus law enforcement entities:

- Assist task force member agencies in enforcing criminal laws related to IP theft, including the reimbursement of expenses incurred during criminal enforcement operations, such as overtime pay and storage fees for seized evidence.
- Ensuring deconfliction of participating agencies’ investigative and enforcement efforts. Grantees and any task force-participating agencies are required to deconflict task force investigations and events through one of the entities of the Nationwide Officer Safety Event Deconfliction program: Case Explorer, SAFETNet, or RISSafe. More information can be obtained at [https://www.ncirc.gov/Deconfliction/](https://www.ncirc.gov/Deconfliction/).

The Goals, Objectives, and Deliverables are directly related to the performance measures that demonstrate the results of the work completed, as discussed under Application and Submission Information.

**Evidence-Based Programs or Practices**

OJP strongly emphasizes the use of data and evidence in policymaking and program development in criminal justice, juvenile justice, and crime victim services. For additional information and resources on evidence-based programs or practices, see the [OJP Grant Application Resource Guide](https://www.ojp.gov/grants/resource-guide/).

**Information Regarding Potential Evaluation of Programs and Activities**

OJP may conduct or support an evaluation of the programs and activities funded under this solicitation. For additional information, see the [OJP Grant Application Resource Guide](https://www.ojp.gov/grants/resource-guide/) section entitled “Information Regarding Potential Evaluation of Programs and Activities.”

**OJP Priority Areas**

In FY 2021 and in addition to executing any program-specific prioritization that may be applicable, OJP will give priority consideration to applications as follows:
Applications that address specific challenges that rural communities face.
Applications that demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent-poverty counties.
Applications that offer enhancements to public safety in economically distressed communities (Qualified Opportunity Zones).

To receive priority consideration under the rural priority, applicants must describe what makes the geographic service area rural (using U.S. Census or other appropriate government data; for assistance, applicants may wish to refer to https://www.census.gov/programs-surveys/geography/guidance/geo-areas/urban-rural.html), how isolated the area is from needed services, and how they will address specific challenges in rural communities.

To receive priority consideration under the poverty priority, the applicant must provide information to demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent poverty counties. For purposes of this priority consideration, the term “high-poverty area” means any census tract with a poverty rate of at least 20 percent as measured by the 2013–2017 5-year data series available from the American Community Survey of the Census Bureau (applicants may search by census tract at https://www.census.gov/acs/www/data-tables-and-tools/narrative-profiles/2017/) and the term “persistent poverty counties” means any county that has had 20 percent or more of its population living in poverty over the past 30 years, as measured by the 1990 and 2000 decennial censuses and the most recent Small Area Income and Poverty Estimates (applicants may search by county at https://www.census.gov/data/tables/time-series/dec/census-poverty.html and at https://www.census.gov/programs-surveys/saipe.html).

To receive priority consideration under the Qualified Opportunity Zones priority, applicants must include information that specifies how the project will enhance public safety in the specified QOZs. For resources on QOZs, and for a current list of designated QOZs, see the U.S. Department of the Treasury’s resource webpage, accessible at https://www.cdfifund.gov/pages/opportunity-zones.aspx

OJP policy priority consideration will consist of receiving additional points in the application scoring process. Receipt of priority consideration does not guarantee that an application will be funded; nor will the failure to receive priority consideration necessarily mean that an application will not be funded.

Other important considerations for BJA include geographic diversity, strategic priorities (specifically including, but not limited to, those mentioned above relating to addressing specific challenges that rural communities face, high-poverty areas or persistent-poverty counties, demonstrable potential enhancement to public safety in one or more federally designated Qualified Opportunity Zones), available funding, past performance, if this request was funded in FY2020 IPEP for the same items requested in the FY2021 application, and the extent to which the Budget Worksheet and Budget Narrative (Web-based Form) accurately explain project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.
Applications submitted under this solicitation that meet basic minimum requirements, will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the stated review criteria above.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting peer review. Although specific requirements may vary, the following are common requirements applicable to all solicitations for funding under OJP programs:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet the basic minimum requirements.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among other things to help assess whether an applicant that has one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed $250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

**Important note on FAPIIS:** An applicant may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider any such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General, who may take into account not only peer review ratings and BJA recommendations, but also other factors as indicated in this section.
