Preventing School Violence: BJA's STOP School Violence Program CFDA # 16.839

Program Description

Overview

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

The Student, Teachers, and Officers Preventing School Violence Act of 2018 (or STOP School Violence Act) describes the following for K-12 school safety projects:

- Training to prevent school violence, including training for local law enforcement officers, school personnel, and students.
- The development and operation of anonymous reporting systems for threats of school violence, including mobile telephone applications, hotlines, and websites.
- The development and deployment of—
 - Multidisciplinary intervention and threat assessment teams that, when necessary, evaluate serious risks of violence in schools and include coordination with law enforcement agencies, behavioral health specialists, community stakeholders, and school personnel.
 - Specialized training for school officials in responding to student mental health crises, including training on when and how to involve mental health professionals.
- Support for any other measure that, in the determination of the BJA Director, may provide a significant improvement in training, threat assessments and reporting, and violence prevention.

NOTE: Under the STOP School Violence Act, BJA funds cannot be used for the purchase of target-hardening equipment to secure schools such as cameras, security systems, fencing, locks, etc. In addition, these funds cannot be used to pay for armed security officers or school resource officers. Applicants interested in funding for target hardening should see the [COPS School Violence Prevention Program \(SVPP\)](#). Duplicate applications should not be submitted to both BJA and COPS.

Statutory Authority: Pub. L. No. 116-260, 134 Stat 1182, 1260.

Specific Information

BJA's STOP School Violence Grant Program is designed to improve K-12 school security by providing students and teachers with the tools they need to recognize, respond quickly to, and help prevent acts of violence and ensure a positive school climate.

Eligible applicants may submit **one application** that includes proposals for one or both of the following areas:

- (1) **Train school personnel and educate students on preventing school violence** against others and themselves to include anti-bullying training. This can also include

specialized training for school officials to respond to mental health crises, including when and how to effectively involve mental health professionals.

(2) Develop and implement multidisciplinary threat assessment and/or intervention teams and/or operate technology solutions such as anonymous reporting systems for threats of school violence, including mobile telephone applications, hotlines, websites, or other school safety technology solutions for accurate identification of danger (without resort to discriminatory stereotypes or violating privacy). **Threat assessment and/or intervention teams** must coordinate with law enforcement agencies, behavioral health specialists, community stakeholders, and school personnel, and must include a memorandum of understanding (MOU).

Applications that propose threat assessments, intervention teams, and/or operate technology solutions such as anonymous reporting systems should ensure that their implementation strategies, policies, and protocols address critical issues such as student privacy, data security, race, national origin, disability, religion and sex-based discrimination and bias. They also must ensure that community stakeholders are a part of the planning process as described in the U.S. Secret Service National Threat Assessment Center's [threat assessment model](#), and that interventions are trauma-informed as well as informed by child and adolescent development. BJA's training and technical assistance (TTA) provider, the [National Center for School Safety](#), will work with grantees to assess their strategies and provide support as necessary throughout the grant period on vital issues such as developing evidence-based, constitutionally sound programs. For more information related to policies and protocols to address student privacy, data security, discrimination and bias, see <https://studentprivacy.ed.gov/> and <https://studentprivacy.ed.gov/resources/school-resource-officers-school-law-enforcement-units-and-ferpa>.

Applications must ensure that the improvements to be funded under the grant are:

- Protective of student privacy, as required by the Family Educational Rights and Privacy Act (FERPA) and applicable state privacy laws, and ensure that students are not discriminated against on the basis of race, national origin, disability, religion, or sex;
- Limited to allow personnel in law enforcement agencies to receive student information from education records only when such disclosure is necessary to protect the health or safety of the student or other individuals (e.g., necessary to prevent school violence);
- Consistent with a comprehensive approach to preventing school violence and promoting a positive school climate;
- Transparent so that students, parents/guardians, and community members know what is being done and have the data necessary to monitor its effectiveness and compliance with privacy and non-discrimination requirements; and
- Individualized to the needs of each school at which those improvements are to be made.

Applicants proposing to implement an anonymous reporting system (ARS) in a state or jurisdiction that has an existing ARS must describe how the proposed ARS will complement and integrate into these efforts and will not be duplicative.

STOP funds may not be used to address violence on the campus of an institution of higher education.

All applicants should be aware that under federal law, OJP may not award grant funds to procure or obtain any equipment, system, or service that uses “covered telecommunications equipment or services” as a substantial or essential component of any system, or as critical technology as part of any system. In general, with limited exceptions, “covered telecommunications equipment or services” includes telecommunications and video surveillance equipment or services produced by a foreign entity that is specifically designated by statute or designated by the federal government pursuant to statute.

Applicants also should be aware that, in accordance with DOJ and OJP policy, and with few exceptions, OJP will prohibit use of award funds for unmanned aircraft systems (UAS), absent advance submission of specific documentation of protections in place for privacy, civil liberties, and public safety, and of mitigation of cybersecurity risks. In addition, OJP will bar use of award funds for the purchase or use of UAS made by certain foreign entities designated by DOJ.

Goal, Objective, Deliverables

Goal

The goal of this program is to prevent and reduce school violence.

Objective

The program’s objective is to increase school safety using evidence-based solutions to prevent violence against schools, staff, and students and ensure a positive school climate. Applicants should also be mindful of the potential to cause or exacerbate trauma for some students, and should use a trauma-informed approach when implementing program activities to help mitigate this concern.

Deliverables

- Implementation of training, including for all school threat assessments and/or intervention teams, that prepares school and/or law enforcement personnel to identify school violence risks among students in a nondiscriminatory and trauma-informed way and/or to improve the school climate. A positive school climate is paramount for learning; activities should not generate additional fears or traumatize students who may already be living in an unsafe environment. Threat assessment training must not discriminate against or stereotype students based on race, national origin, disability, religion, or sex.
- Resources and strategies for responding to students in mental health crisis that are trauma informed, protect student privacy rights, and most importantly involve mental health professionals at all stages of training and in practice.
- Technological solutions, such as anonymous reporting technology that can be implemented as a mobile phone-based app, a hotline, a website, or other technology solution in the applicant’s geographic area to enable students, teachers, faculty, and community members to anonymously identify threats of school violence, or other technology solutions shown to improve school safety and/or improve the school climate. Activities should be protective of student privacy and ensure that students are not discriminated against on the basis of race, national origin, disability, religion, or sex.
- Other school safety strategies that assist in preventing violence and improving the school climate such as improving access to school-based behavioral health services,

implementing appropriate social and emotional learning programs, or other interventions that promote a positive and healthy school climate.

Applicants will be required to document all training and education sessions conducted under the award, as applicable. Applicants will also be required to coordinate with the BJA STOP Program TTA provider.

The Goals, Objectives, and Deliverables are directly related to the performance measures that demonstrate the results of the work completed, as discussed under the Application and Submission Information section.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting peer review. Although specific requirements may vary, the following are common requirements applicable to all solicitations for funding under OJP programs:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet the basic minimum requirements.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among other things to

help assess whether an applicant that has one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed \$250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

Important note on FAPIIS: An applicant may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider any such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General, who may take into account not only peer review ratings and BJA's recommendations, but also other factors as indicated in this section.
