The Byrne Criminal Justice Innovation (BCJI) Program, formerly titled “Innovations in Community Based Crime Reduction (CBCR) Program,” targets distressed neighborhoods facing concentrated crime challenges, particularly serious and violent crime, composing a large proportion of crime as compared to other parts of the jurisdiction. Therefore, applying jurisdictions are strongly encouraged to coordinate with and seek the support of their local U.S. Attorney’s Office and local policymakers, and to connect BCJI programming with other violent crime and community revitalization efforts.

To advance Executive Order 13929 Safe Policing for Safe Communities, as of October 28, 2020, the Attorney General determined that all state, local, and university or college law enforcement agencies must be certified by an approved independent credentialing body or have started the certification process to be allocated FY 2021 DOJ discretionary grant funding, as either a recipient or a subrecipient. For detailed information on this new certification requirement, please visit https://cops.usdoj.gov/SafePolicingEO.

All recipients and subrecipients (including any for-profit organization) must forgo any profit or management fee.
BJA will consider applications under which two or more entities would carry out the federal award; however, only one entity may be the applicant. Any others must be proposed as subrecipients (subgrantees). For additional information on subawards, see the OJP Grant Application Resource Guide.

BJA may elect to fund applications submitted under this FY 2021 solicitation in future fiscal years, dependent on, among other considerations, the merit of the applications and on the availability of appropriations.

Program Description

Overview
The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

The Byrne Criminal Justice Innovation (BCJI) Program supports Department priorities to reduce serious and violent crime, including gun violence; dismantle gang activity; and strengthen local capacity to combat drug abuse. BCJI helps communities build trust and support law enforcement agencies working with these communities by integrating enforcement strategies into community-based crime reduction efforts and using this information to understand and target the issues.

A critical pillar of the BCJI Program is neighborhood empowerment. Community-oriented approaches build trust, facilitate a mutually beneficial exchange of knowledge and resources, enhance the community’s perception of the fairness and effectiveness of policies and interventions, and increase the willingness of the community and those in the criminal justice system to comply with the social mores in the community. Implementing these approaches without strong community collaboration will likely be unsuccessful and may overlook a community or neighborhood’s unique needs and challenges as well as the ability to develop and implement sustainable change. Community leaders and residents are often in the best position to motivate, implement, and sustain change over time; therefore, applications should be developed in collaboration with community members to build community support for community needs as they evolve over time and indicate how community residents will be involved as full partners throughout the project.

Statutory Authority
Any awards under this solicitation would be made under statutory authority provided by the Consolidated Appropriations Act, 2021, Pub. L. No. 116-260, 134 Stat. 1182, 1260.

Specific Information
BCJI is a strategic approach to crime reduction that leverages community knowledge and expertise by focusing enforcement efforts on neighborhoods where crime is concentrated, or crime “hotspots.” These neighborhoods face a range of challenges which cause their crime problems, so BCJI employs a multifaceted approach that addresses their roots in order to generate long-term impacts. Persistent crime and public safety problems, especially gang activity and youth violence, cannot be addressed solely by law enforcement. These issues require a comprehensive interagency approach that enables law enforcement, educators, social services agencies, and community organizations to address both public safety problems and their underlying causes.

The BCJI model is often used to support Community Violence Intervention (CVI) strategies to reduce gun violence. CVI strategies like violence interruption programs deploy trusted messengers who work directly with individuals most likely to commit gun violence, intervene in conflicts, and connect these people to social and economic services to reduce the likelihood of their using gun violence as an answer. Hospital-based violence interventions engage people who have been shot while they are still in the hospital, connecting them to services to decrease the likelihood that they commit gun violence or are victimized in the future. Programs like these have reduced homicides by as much as 60 percent in areas where they are implemented. Applicants proposing to use these or other community-based interventions targeting gun violence as part of their BCJI strategy will receive priority consideration.

While each BCJI community is unique, most face common challenges and use similar approaches to address crime and safety challenges. These include:

- Addressing serious and violent crime, with a special emphasis on gun violence and related crimes.
- Examining conditions that contribute to crime in order to effectively target crime hotspots.
- Addressing physical conditions that increase risk for crime, seeking to harden these targets through assessments and review of land use, code enforcement, and nuisance laws.
- Implementing strategies to engage residents, including youth and young adults, in crime prevention efforts.

To achieve BCJI Program objectives (described in the next section), the applicant must sustain an active and engaged leadership role in the successful management of a BCJI grant award. The applicant serves as a core partner and must convene, lead, and engage a broad cross-sector partnership team that includes law enforcement, other criminal justice partners, neighborhood residents, and relevant community stakeholders. The cross-sector partnership team should have the capacity to conduct the necessary research and data analysis activities described throughout this grant announcement.

Applicants from jurisdictions that received a BCJI award (formerly titled “Innovations in Community-Based Crime Reduction”) in the last 3 years should describe how they are going to build on the lessons learned from previous local award(s) and/or coordinate with any ongoing BCJI projects. Applicants should consult the following website to determine if there have been previous awards in their jurisdiction: [https://www.theiacp.org/projects/community-based-crime-reduction-training-and-technical-assistance](https://www.theiacp.org/projects/community-based-crime-reduction-training-and-technical-assistance).

In FY 2021, there are two categories of awards in BCJI. Categories 1 and 2 support planning and implementation phases as described in more detail below. Category 1 is for larger jurisdictions, and Category 2 is for smaller cities and rural jurisdictions under 100,000 per capita.

All applicants should be aware that under federal law, OJP may not award grant funds to procure or obtain any equipment, system, or service that uses “covered telecommunications equipment or services” as a substantial or essential component of any system, or as critical technology as part of any system. In general, with limited exceptions, “covered telecommunications equipment or services” includes telecommunications and video surveillance equipment or services produced by a foreign entity that is specifically designated by statute, or designated by the federal government pursuant to statute.

Applicants also should be aware that, in accordance with DOJ and OJP policy, and with few exceptions, OJP will prohibit use of award funds for unmanned aircraft systems (UAS), absent advance submission of specific documentation of protections in place for privacy, civil liberties, and public safety, and of mitigation of cybersecurity risks. In addition, OJP will bar use of award funds for the purchase or use of UAS made by certain foreign entities designated by DOJ.

Goals, Objectives, Deliverables, and Timeline

Goal:
The goal of the BCJI solicitation is to invest in jurisdictions with significant crime challenges that want long-term solutions, incorporating all four elements of the BCJI model. This includes programs aimed at developing or improving relationships between law enforcement and the communities they serve, including through community outreach and listening sessions, and supporting nonprofit organizations that focus on improving stressed relationships between law enforcement officers and communities. The BCJI model is based on the principle that sustainable reductions in violent crime require collaboration among partners in the criminal justice system, service providers, and the communities they serve. The BCJI Program approach, and the training and technical assistance (TTA) to support the model, features the following four core elements:

1. A place-based strategy that targets locations where crime is occurring through approaches to deter future crime while integrating crime control efforts with revitalization strategies.
2. Community engagement in shaping and sustaining crime prevention and revitalization efforts to enable success and sustainability over the long haul.
3. Data-driven efforts to problem solve and guide program strategy, using the most effective strategies where they are needed the most, and targeting where crime is concentrated for maximum impact.
4. Partnerships and capacity building to establish trust and promote sustainable collaboration to reduce and prevent crime in hotspots.

Objectives:

1. Planning and Action Plan Finalization Phase (6-12 months):
   - Building upon the Initial Action Plan that is submitted with the application, review and verify chronic crime hotspots within the target neighborhood, working with law enforcement, research partners, and crime analysts. Identify micro-hotspots or other specific locations for targeted prevention and/or intervention strategies.
   - Update and confirm the most effective strategies to reduce serious and violent crime, particularly drugs and gun violence, resulting in a final comprehensive Action Plan that articulates the range of strategies that the BCJI partners plan to pursue. These strategies may differ from proposed strategies in the Initial Action Plan due to results from data analysis and/or input from stakeholder and community partners.
   - Engage community stakeholders in building law enforcement and other partners.
   - Finalize the comprehensive Action Plan that includes descriptions of priority hotspots and strategies to reduce crime, and submit to BJA for final approval.

2. Action Plan Implementation Phase:
   - Implement strategies developed in the approved Final Action Plan.
   - Build the capacity of residents and the BCJI management team to coordinate and engage in a crime problem-solving approach.
   - Implement, modify, and evaluate strategies, as appropriate; redirect program activities when ongoing analysis indicates program goals are not being met.
   - Continue to engage partners and community residents and build trust between partners, including law enforcement.
   - Identify and develop a sustainability strategy for long-term implementation of BCJI, including the active role of community stakeholders.

Deliverables:
The Final Action Plan must be submitted and approved by BJA prior to implementation. BJA, the BCJI training and technical assistance (TTA) provider, and the grantee will use this Action Plan to guide and track site progress toward project objectives.

A final report is due 90 days after the project end date.

The Goals, Objectives, and Deliverables are directly related to the performance measures that demonstrate the results of the work completed, as discussed under the Application and Submission Information section.

Evidence-Based Programs or Practices
OJP strongly emphasizes the use of data and evidence in policymaking and program development in criminal justice, juvenile justice, and crime victim services. For additional information and resources on evidence-based programs or practices, see the [OJP Grant Application Resource Guide](https://www.ojp.gov/).  

Information Regarding Potential Evaluation of Programs and Activities
OJP may conduct or support an evaluation of the programs and activities funded under this solicitation. For additional information, see the [OJP Grant Application Resource Guide](https://www.ojp.gov/) section entitled “Information Regarding Potential Evaluation of Programs and Activities.”

Priority Areas
The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and crime evolving threats, and builds trust between law enforcement and the community. In FY 2021, OJP will give priority consideration in award decisions to applications that demonstrate ways in which their projects will advance one or more of these areas.

To receive priority consideration for advancing one or more of the Department’s priorities, the applicant must provide a sufficient narrative explanation as an attachment, that specifies how the project will advance the promotion of civil rights, access to justice, support to crime
victims, protecting the public from crime and evolving threats, or building trust between law enforcement and the community.

In FY 2021, under this program, OJP also will give priority to applicants proposing to implement Community Violence Intervention (CVI) strategies (i.e., community-based gun violence interventions such as street outreach, violence interrupters, group violence intervention, and hospital-based violence interventions). To receive priority consideration under the CVI priority, the applicant must provide a sufficient narrative explanation as an attachment, that describes one or more specific CVI strategies that will be implemented with funding and how they will be targeted to reduce violence.

In addition, OJP will give priority consideration, if applicable, to applicants that demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent-poverty counties.

To receive priority consideration under the poverty priority, the applicant must provide information to demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent poverty counties. For purposes of this priority consideration, the term “high-poverty area” means any census tract with a poverty rate of at least 20 percent as measured by the 2013–2017 5-year data series available from the American Community Survey of the Census Bureau (applicants may search by census tract at https://www.census.gov/acs/www/data/data-tables-and-tools/narrative-profiles/2017/) and the term “persistent poverty counties” means any county that has had 20 percent or more of its population living in poverty over the past 30 years, as measured by the 1990 and 2000 decennial censuses and the most recent Small Area Income and Poverty Estimates (applicants may search by county at https://www.census.gov/data/tables/time-series/dec/census-poverty.html and at https://www.census.gov/programs-surveys/saipe.html).

Priority consideration is one of many factors that OJP considers in making funding decisions and is not a guarantee of an award.

- Describe the recent history of the target neighborhood and how serious and violent crime, including gun violence, and drug abuse have impacted it. Detail neighborhood assets, challenges, and any experiences that have restricted or limited opportunities for community and economic development. Describe any issues of mutual trust or mistrust between residents and law enforcement and their impact on efforts to effect neighborhood improvement.

This includes a plan for bringing local law enforcement and community stakeholders together for a collaborative approach toward crime reduction.

  c. Describe crime analysis and action research capacity and expertise, including work with the law enforcement agency. The partner organization should demonstrate knowledge of community-oriented, place-based crime strategies and evaluation methods, and describe any history of a relationship or familiarity with the police agency (i.e., has it worked with the applicant and/or police agency in the past, or is this a new endeavor). For rural or tribal areas, it may be more appropriate for the partner organization to describe expertise specific to the issues and needs of the targeted community.

  d. Describe the capacity to assist the police agency with data collection issues and analysis. Include a paragraph about the methods that will be used for the project.

b. Plan for Collecting the Data Required for this Solicitation’s Performance Measures

  - Describe the process for measuring project performance. Identify who will collect the data, who is responsible for performance measurement, and how the information will be used to guide and assess the program. If applicable, describe the process to accurately report implementation findings. Assess the quality and usefulness of any proposed evaluation activities, findings, and reports.

Application Review Information
**Review Criteria**

*a. Merit Review Criteria*

Applications that meet basic minimum requirements will be evaluated by peer reviewers. Applications will be evaluated on how the proposed project/program addresses the following criteria:

1. **Statement of the Problem/Description of the Issue (20%)** - evaluate the applicant’s understanding of the program/issue to be addressed.
2. **Project Design and Implementation (40%)** - evaluate the adequacy of the proposal, including the goals, objectives, timelines, milestones, and deliverables.
3. **Capabilities and Competencies (25%)** - evaluate administrative and technical capacity of the applicant to successfully accomplish the goals and objectives.
4. **Plan for Collecting the Data Required for this Solicitation’s Performance Measures (5%)** - evaluate the applicant’s understanding of the performance data reporting requirements and the plan for collecting the required data.
5. **Budget (10%)** - evaluate for completeness, cost effectiveness, and allowability (e.g., reasonable, allocable, and necessary for project activities).

*b. Other Review/Criteria*

Other important considerations for BJA include geographic diversity, strategic priorities (specifically including, but not limited to, those mentioned above relating to priority areas), available funding, documented coordination with the U.S. Attorney’s Office, past performance, and the extent to which the Budget Worksheet and Budget Narrative (web-based form) accurately explain project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

**Review Process**

Applications submitted under this solicitation that meet basic minimum requirements, will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the stated review criteria above.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting peer review. Although specific requirements may vary, the following are common requirements applicable to all solicitations for funding under OJP programs:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet the basic minimum requirements.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among other things to help assess whether an applicant that has one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed $250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awarded Performance and Integrity Information System, FAPIIS).

**Important note on FAPIIS:** An applicant may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider any such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General, who may take into account not only peer review ratings and BJA’s recommendations, but also other factors as indicated in this section.

**Federal Award Administration Information**

**Federal Award Notices**

See the [OJP Grant Application Resource Guide](#) for information on award notifications and instructions.

**Administrative, National Policy, and Other Legal Requirements**

If selected for funding, in addition to implementing the funded project consistent with the OJP-approved application, the recipient must comply with all award conditions, and all applicable requirements of federal statutes and regulations (including applicable requirements referred to in the assurances and certifications executed in connection with award acceptance).

For additional information on these legal requirements, see the “Administrative, National Policy, and Other Legal Requirements” section in the [OJP Grant Application Resource Guide](#).

**Information Technology (IT) Security Clauses**

An application in response to this solicitation may require inclusion of information related to information technology security. See the [OJP Grant Application Resource Guide](#) for information on information technology security.

**General Information about Post-Federal Award Reporting Requirements**

Required reports. Recipients typically must submit quarterly financial reports, quarterly and semi-annual progress reports, final financial and progress reports, and, if applicable, an annual audit report in accordance with the Part 200 Uniform Requirements or specific award conditions.
