Program Description

Overview

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

The Comprehensive Opioid, Stimulant, and Substance Abuse Program (COSSAP) was developed as part of the Comprehensive Addiction and Recovery Act (CARA) legislation. COSSAP's purpose is to provide financial and technical assistance to states, units of local government, and Indian tribal governments to develop, implement, or expand comprehensive efforts to identify, respond to, treat, and support those impacted by illicit opioids, stimulants, and other drugs of abuse.

Statutory Authority

34 USC 10701; Public Law 116-260, 134 Stat. 1182, 1259. Any awards under this solicitation would be made under statutory authority provided by a full-year appropriations act for FY 2021.

Specific Information

Our nation's addiction crisis is a public safety and public health emergency that threatens the wellbeing of individuals and families struggling with substance abuse, and impacts the safety and health of communities. This crisis impacts first responders, the criminal justice system, child welfare and foster care, and behavioral health systems.

Goals, Objectives, Deliverables, and Timeline

COSSAP aims to reduce the impact of opioids, stimulants, and other substances on individuals and communities, including a reduction in the number of overdose fatalities, as well as mitigate the impacts on crime victims by supporting comprehensive, collaborative initiatives. Note that grantees are prohibited from using federal funds to support activities that violate the Controlled Substances Act.

Category 1: Local applications

The objective of Category 1 is to encourage and support the development of comprehensive, locally driven responses to opioids, stimulants, and other substances of abuse that expand access to supervision, treatment, and recovery support services across the criminal justice system; support law enforcement and other first responder diversion programs for nonviolent drug offenders; promote education and prevention activities; and address the needs of children impacted by substance abuse.

Allowable Uses of Category 1 Funds

Category 1 grant funds may be used to develop, implement, or expand a combination of the allowable use activities described below, or be concentrated on one, so long as the proposed budget is appropriate and justified.

- Prebooking or postbooking treatment alternative-to-incarceration programs that serve individuals at high risk for overdose or substance abuse.
- Law enforcement and other first responder diversion programs. A variety of multidisciplinary overdose prevention, response, and diversion and referral models, led by law enforcement and other first responders, have emerged in communities throughout the nation. Examples of such models include the Law Enforcement Assisted Diversion (LEAD) model and the Police Assisted Addiction and Recovery Initiative (PAARI).
- Education and prevention programs to connect law enforcement agencies with K-12 students. Applicants are strongly encouraged to implement programs informed by data and evidence and child and adolescent development.
- Embedding social services with law enforcement in order to rapidly respond to drug overdoses where children are impacted.
- Comprehensive, real-time, regional information collection, analysis, and dissemination.
- Naloxone for law enforcement and other first responders.
- Identifiable and accessible take-back programs for unused controlled substances found in the home and used by hospitals and long-term care facilities.
- Evidence-based treatment such as medication-assisted treatment (MAT) as well as recovery support services including transitional or recovery housing and peer recovery support services.
- Court-based intervention programs or family court programming to prioritize and expedite treatment and recovery services to individuals at high risk for overdose. Funding is available under other BJA solicitations to implement or enhance an adult drug court and/or a veterans treatment court. As such, implementing or enhancing these court models is not an allowable funding activity under this solicitation.

Additional program information may be found at www.cossapresources.org.

Category 2: Applications from states on behalf of county, local, municipal, or tribal communities

The objective of Category 2 is to support states in their efforts to implement and enhance one or more of the allowable activities detailed under Category 1 in a **minimum of six** geographically diverse counties, localities, or regions.

The state may retain up to \$800,000 in total (not annually) for administrative purposes and to support the mandatory deliverables. In addition to the \$800,000 that may be retained for administrative expenses, a portion of the funds may be used to support an independent evaluation of project activities. The balance of the funds must be subawarded to local communities, regions, or tribal entities.

Deliverables for Category 2

- Select a minimum of six geographically diverse localities or regions within the state and provide subawards to them within 9 months of the grant award.
- Implement one or more of the allowable activities detailed under Category 1.
- Support a robust planning period for the sites, if needed, to support implementation efforts at each of the sites.
- Coordinate cross-site training and peer-to-peer learning.

If the proposed project is solely for program evaluation or includes an evaluation component, provide a copy of any evaluation report prior to the close of the grant period.

Applicants applying for funding under Categories 1 or 2 must agree to work closely with a researcher selected by BJA who may conduct a site-specific or cross-site evaluation in future years.

Program-specific Priority Areas

In FY 2021, and in addition to the "Priority Areas" discussed below, priority consideration will be given to applicants that demonstrate the state, or regions within the state, has been disproportionately impacted by the abuse of illicit opioids, stimulants, or other substances as evidenced, in part, by:

- A high rate of primary treatment admissions for heroin, opioids, and stimulants.
- High rates of overdose deaths.
- A lack of accessibility to treatment providers and facilities and to emergency medical services.

To receive priority consideration, applicants must include a clear and complete description in the program narrative.

Priority consideration is one of many factors that OJP considers in making funding decisions and is not a guarantee of an award.

The Goals, Objectives, and Deliverables are directly related to the performance measures that demonstrate the results of the work completed, as discussed under the Application and Submission Information section.

Evidence-Based Programs or Practices

OJP strongly emphasizes the use of data and evidence in policymaking and program development in criminal justice, juvenile justice, and crime victim services. For additional information and resources on evidence-based programs or practices, see the [OJP Grant Application Resource Guide](#).

Information Regarding Potential Evaluation of Programs and Activities

OJP may conduct or support an evaluation of the programs and activities funded under this solicitation. For additional information, see the [OJP Grant Application Resource Guide](#) section entitled "Information Regarding Potential Evaluation of Programs and Activities."

OJP Priority Areas

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community. In FY 2021, OJP will give priority consideration in award decisions to applications that demonstrate ways in which their projects will advance one or more of these areas.

To receive priority consideration for advancing one or more of the Department's priorities, the applicant must provide a sufficient narrative explanation as an attachment, that specifies how the project will advance the promotion of civil rights, access to justice, support to crime victims, protecting the public from crime and evolving threats, or building trust between law enforcement and the community.

In addition, OJP will give priority consideration, if applicable, to applicants that demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent-poverty counties.

To receive priority consideration under the poverty priority, the applicant must provide information to demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent-poverty counties. For purposes of this priority consideration, the term "high-poverty area" means any census tract with a poverty rate of at least 20 percent as measured by the 2013–2017 5-year data series available from the American Community Survey of the Census Bureau (applicants may search by census tract at <https://www.census.gov/acs/www/data/data-tables-and-tools/narrative-profiles/2017/>) and the term "persistent-poverty counties" means any county that has had 20 percent or more of its population living in poverty over the past 30 years, as measured by the 1990 and 2000 decennial censuses and the most recent Small Area Income and Poverty Estimates (applicants may search by county at <https://www.census.gov/data/tables/time-series/dec/census-poverty.html> and at <https://www.census.gov/programs-surveys/saie.html>).

Priority consideration is one of many factors that OJP considers in making funding decisions and is not a guarantee of an award..

In addition, nothing in this solicitation is intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

Types of Awards

BJA expects to make awards under this solicitation as grants. See the "Administrative, National Policy, and Other Legal Requirements" section of the [OJP Grant Application Resource Guide](#) for a brief discussion of important statutes, regulations, and award conditions that apply to many (or in some cases, all) OJP grants (and cooperative agreements).

Financial Management and System of Internal Controls

Award recipients and subrecipients (including recipients or subrecipients that are pass-through entities) must, as described in the Part 200 Uniform Requirements as set out at 2 C.F.R. 200.303, comply with standards for financial and program management. If such costs are included, the applicant should be able to certify that they are nonredeemable, nontransferrable, and that their use by participants is auditable. The applicant must have written policies for determining eligibility, tracking distribution, and ensuring that passes are only used for transportation related to program activities.

Budget and Associated Documentation

- BJA anticipates one national meeting will occur during year two and year three of the grant for which applicants must budget travel. All applicants should budget for travel expenses (airfare, hotel, per diem, and group transportation) for a minimum of two staff to attend one face-to-face meeting during years one and two of the grant. Each meeting should be budgeted for 3 days each in Washington, D.C. The purpose of this travel may vary according to funding category and specific project objectives; however, BJA wants to ensure that all grantees have the opportunity to present their work and collaborate with their peers and other national and federal stakeholder groups. Category 2 applicants must require that all subrecipient sites budget to have a minimum of two staff attend the two national meetings as well.
- Submit a budget that is complete, cost effective, and allowable (e.g., reasonable, allocable, and necessary for project activities) and includes the required meetings budgeted for each year. The budget narrative should generally demonstrate how the applicant will maximize cost effectiveness of grant expenditures. The budget narrative should demonstrate cost effectiveness in relation to potential alternatives and the objectives of the project. Generally speaking, a reasonable cost is a cost that, in its nature or amount, does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision was made to incur the costs.
- Include an appropriate percent of the total grant award for performance measurement. There is no minimum or maximum requirement regarding what constitutes an appropriate percent; however, the budget should be adequate to fund the activities outlined in the application. The budget narrative should explain how the amount dedicated to these activities is adequate to support the proposed activities.
- If an applicant proposes to fund recovery or transitional housing, no more than 30 percent of the total budget may be used for this purpose.

Category 1: Local applicants should heed the budget restrictions associated with their subcategory, based on the project site’s population size.

Category 2: State applicants should heed the following budget restrictions associated with the number of proposed project sites. No more than \$800,000 may be retained by the state for administrative purposes and to support the mandatory deliverables. In addition to the \$800,000 that may be retained for administrative expenses, a portion of the funds may be used to support an independent evaluation of project activities. The remaining federal funds must be passed through to the proposed project sites. States that have no county or local government-managed addiction service systems may contract funds directly to providers at the community level.

Application Review Information

Review Criteria

a. Merit Review Criteria

Applications that meet basic minimum requirements will be evaluated by peer reviewers. Applications will be evaluated on how the proposed project/program addresses the following criteria:

1. Description of the Issue (15%) - evaluate the applicant's understanding of the program/issue to be addressed.
2. Project Design and Implementation (40%) - evaluate the adequacy of the proposal, including the goals, objectives, timelines, milestones, and deliverables.
3. Capabilities and Competencies (25%) - evaluate administrative and technical capacity of the applicant to successfully accomplish the goals and objectives.
4. Plan for Collecting the Data Required for this Solicitation's Performance Measures (10%) - evaluate the applicant's understanding of the performance data reporting requirements and the plan for collecting the required data.
5. Budget (10%) - evaluate for completeness, cost effectiveness, and allowability (e.g., reasonable, allocable, and necessary for project activities).

b. Other Review Criteria/Factors

Other important considerations for BJA include geographic diversity, strategic priorities (specifically including, but not limited to, those mentioned above relating to priority areas), available funding, past performance, and the extent to which the Budget Worksheet and Budget Narrative (web-based form) accurately explain project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

Review Process

Applications submitted under this solicitation that meet basic minimum requirements, will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the stated review criteria above. OJP screens applications to ensure they meet the basic minimum requirements prior to conducting peer review. Although specific requirements may vary, the following are common requirements applicable to all solicitations for funding under OJP programs:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet the basic minimum requirements.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among other things to help assess whether an applicant that has one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed \$250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

Important note on FAPIIS: An applicant may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider any such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General, who may take into account not only peer review ratings and BJA's recommendations, but also other factors as indicated in this section.
