Postconviction Testing of DNA Evidence
CFDA # 16.820

A. Program Description

Overview
BJA seeks proposals for funding to assist in defraying the costs associated with postconviction DNA testing in cases of violent felony offenses (as defined by state law) in which actual innocence might be demonstrated. Funds may be used to identify and review such postconviction cases and to locate and analyze associated biological evidence.

Statutory Authority: Any awards under this solicitation will be made under statutory authority provided by Consolidated Appropriations Act, 2020, Pub. L. 116-93, 133 Stat 2317, 2408.

Program-specific Information
Under this program, BJA provides funding to help defray the costs (e.g., of additional personnel, overtime, testing supplies and services) associated with postconviction DNA testing for violent felony offenses (as defined by state law) in which actual innocence might be demonstrated. Funds may be used to review suitable postconviction cases and to locate and analyze biological evidence. Only a limited portion of funds may be used for case identification activities.

Goals, Objectives, and Deliverables
The goal of this program is to assist states and units of local government with postconviction DNA testing in cases of violent felony offenses where actual innocence might be demonstrated.

Program objectives with respect to target number of cases to be reviewed and other concrete goals must be outlined in the proposal. Funded projects are expected to implement some aspect of each of the following activities, except for case identification, which is not mandatory:

1. Identify potential postconviction DNA testing cases. A maximum of 15 percent of the proposed budget may be dedicated to case identification activities.

2. Review appropriate postconviction cases to identify those in which DNA testing could prove the actual innocence of a person convicted of a violent felony offense as defined by state law.

3. Locate biological evidence associated with such postconviction cases.

4. Perform DNA analysis of appropriate biological evidence.

For the purposes of this solicitation:

- **Case identification** means performing outreach or initial screening activities, other than “case review” as defined below, designed to identify postconviction cases of violent felony offenses (as defined by state law) where DNA analysis might demonstrate actual innocence. Permissible outreach and initial screening mechanisms are face-to-face meetings, closed-circuit television meetings, eligibility letters/questionnaires/applications, telephone calls, and computerized searches of state court records.
• **Case review** means review of files or documentation of postconviction cases of violent felony offenses (as defined by state law) by appropriate persons (e.g., prosecutors, public defenders, law enforcement personnel, and medical examiners) to determine whether biological evidence exists that might, through DNA analysis, demonstrate the actual innocence of the person previously convicted.

• **Evidence Location** means seeking to locate, following a case review, biological evidence that, through DNA analysis, might demonstrate actual innocence, through activities such as the searching of files, storage facilities, and evidence rooms.

• **DNA analysis of biological evidence** includes the handling, screening, and DNA analysis of biological evidence located in connection with a case review.

All DNA analyses conducted using program funds must be performed by a laboratory (government-owned or fee-for-service) that is accredited and that undergoes external audits at least once every 2 years that demonstrate compliance with the applicable DNA Quality Assurance Standards established by the Director of the Federal Bureau of Investigation. All DNA analyses conducted and profiles generated under this program must be maintained pursuant to any applicable federal privacy requirements.

**Please note:** No profiles generated with funding from this program may be entered into any nongovernmental DNA database without prior express written approval from BJA.

Program activity involving forensic genetic genealogical DNA analysis and searching (FGGS) is subject to the DOJ *Interim Policy on Forensic Genetic Genealogical DNA Analysis and Searching* or to the final policy, when issued. See the Performance Measures for additional required grantee reporting on FGGS activities.

The Goals, Objectives and Deliverables are directly related to the performance measures that demonstrate the results of the work completed, as discussed under **What an Application Should Include**. Demonstration of progress in implementing the approved program goals is required periodically. This involves the reporting of numerical performance metrics (cases, hours, testing, etc.), which are the key deliverables reported semiannually and at the conclusion of the program. See **Appendix A: Performance Measures Table**.

**Information Regarding Potential Evaluation of Programs and Activities**

Applicants should note OJP may conduct or support an evaluation of the programs and activities funded under this solicitation. For additional information, see the OJP Grant Application Resource Guide section, entitled, “Information Regarding Potential Evaluation of Programs and Activities.”

7. **Procurement from private laboratories of DNA analyses**—Funds may be used for contracts with accredited fee-for-service laboratories to conduct DNA analysis of biological evidence.

8. **Training (limited)**—In limited circumstances, funds may be used for postconviction training directly related to case identification, case review, location of biological evidence, and DNA analysis of biological evidence. Funds for this purpose must be used only for grant-funded personnel directly engaged in case identification, case review, location of biological evidence, or DNA analysis of biological evidence. The proposal must clearly demonstrate that the proposed training directly supports the program’s purpose areas, and is related directly to the job position and duties of the individual(s) receiving the training.

Please see the OJP Grant Application Resource Guide for information on the following:
Pre-agreement Costs (also known as Pre-award Costs)
Limitation on Use of Award Funds for Employee Compensation; Waiver
Prior Approval, Planning, and Reporting of Conference/Meeting/Training Costs
Costs Associated with Language Assistance (if applicable)

C. Eligibility Information
For eligibility information, see title page.
For information on cost sharing or match requirements, see Section B. Federal Award Information.

D. Application and Submission Information
This solicitation expressly modifies the OJP Grant Application Resource Guide by not incorporating the “Disclosure of Process Related to Executive Compensation” provisions in the “Application Attachments” section of the OJP Grant Application Resource Guide.

What an Application Should Include
The following application elements MUST be included in the application submission for an application to meet the basic minimum requirements (BMR) to advance to peer review and receive consideration for funding: Program Narrative, Budget Detail Worksheet and Budget Narrative.

See the “Application Elements and Formatting Instructions” section of the OJP Grant Application Resource Guide for information on what happens to an application that does not contain all the specified elements, or that is nonresponsive to the scope of the solicitation.

1. Application for Federal Assistance (Standard Form (SF)-424)
The SF-424 is a required standard form used as a cover sheet for submission of pre-applications, applications, and related information. See the OJP Grant Application Resource Guide for additional information on completing the SF-424.

Intergovernmental Review: This solicitation (“funding opportunity”) is not subject to Executive Order 12372. (In completing the SF-424, an applicant is to answer question 19 by selecting the response that the “Program is not covered by E.O. 12372.”)

2. Project Abstract
Applications should include a high quality project abstract that summarizes the proposed project in 400 words or less. Project abstracts should be —

• Written for a general public audience.
• Submitted as a separate attachment with “Project Abstract” as part of its file name.

As a separate attachment, the project abstract will not count against the page limit for the program narrative. Attach this as a separate PDF file titled “Abstract.”

3. Program Narrative
The program narrative section of the application should not exceed 12 double-spaced pages in 12-point font with 1-inch margins. If included in the main body of the program narrative, tables, charts, figures, and other illustrations count toward the 12-page limit for the narrative section. The project abstract, table of contents, appendices, and government forms do not count toward the 12-page limit.

If the program narrative fails to comply with these length-related restrictions, BJA may negatively consider such noncompliance in peer review and in final award decisions.

The main body of the program narrative should describe the proposed project in depth. Within its sections (specified below), the main body of the program narrative should address:

• Implementation approach, including case review selection criteria and the target number of cases to be reviewed with award funds.
• Detailed justification for specific case identification activities proposed for federal funding, if applicable (not to exceed 15 percent of the federal award amount).

The following sections should be included as part of the program narrative:

a. Statement of the Problem

b. Project Design and Implementation, including clearly identified goals and deliverables (refer to page 4).

c. Capabilities and Competencies

d. Plan for Collecting the Data Required for this Solicitation’s Performance Measures

OJP will require each successful applicant to submit regular performance data that demonstrate the results of the work carried out under the award. The performance data directly relate to the goals, objectives, and deliverables identified under "Goals, Objectives, and Deliverables" in Section A. Program Description.

Applicants should visit OJP’s performance measurement page at www.ojp.gov/performance for an overview of performance measurement activities at OJP.

The application should demonstrate the applicant’s understanding of the performance data reporting requirements for this grant program and detail how the applicant will gather the required data should it receive funding. The application should describe the applicant’s plan for collection of all of the performance measures data.

Post award, recipients will be required to submit quarterly performance metrics through BJA’s online Performance Measurement Tool (PMT), located at biafmt.ojp.gov.
Applicants should review the BJA Postconviction Testing of DNA Evidence performance measures for this solicitation listed in Appendix A: Performance Measures Table.

Please note that applicants are not required to submit performance measure data with the application. Performance measures information is included as an alert that BJA will require successful applicants to submit performance data as part of their reporting requirements. For the application, applicants should indicate an understanding of these requirements and discuss how they will gather the required data, should they receive funding.

Note on Project Evaluations
An applicant that proposes to use award funds through this solicitation to conduct project evaluations should follow the guidance under “Note on Project Evaluations” in the OJP Grant Application Resource Guide.

4. Budget Information and Associated Documentation
See the Budget Preparation and Submission Information section of the OJP Grant Application Resource Guide for details on the Budget Detail Worksheet, and on budget information and associated documentation, such as information on proposed subawards, proposed procurement contracts under awards, and pre-agreement costs.

Case Identification
The Budget Detail Worksheet (which includes a “Narrative” section the applicant is to populate for each budget category) should clearly indicate the cost breakouts for any proposed case identification activities (total cost not to exceed 15 percent of the total federal award amount requested) within the appropriate cost categories (e.g., personnel, fringe benefits, travel, equipment, supplies, subawards, procurement contracts, consultants).

a. Certification as to Provision of Postconviction DNA Testing and Preservation of Biological Evidence
   If an award is made, prior to receiving award funds, an applicant must submit an express certification from the chief legal officer of the state (typically the Attorney General) that the state:

   i. Provides postconviction DNA testing of specified biological evidence under a state statute, or under state rules, regulations, or practices, to persons convicted after trial and under a sentence of imprisonment or death for a state offense of murder or forcible rape, in a manner intended to ensure a reasonable process for resolving claims of actual innocence.

new construction or renovations that change the basic prior use of a facility or significantly change the size; research and/or technology development that could be expected to have an effect on the environment; or implementation of programs involving the use of chemicals. For more information about NEPA and BJA’s NEPA Process, please go to https://bja.ojp.gov/national-environmental-policy-act-nepa-guidance.

Review Process
BJA reviews the application to make sure that the information presented is reasonable, understandable, measurable, achievable, and consistent with the solicitation. See the OJP Grant Application Resource Guide for information on the application review process for this solicitation.

In addition, if OJP anticipates that an award will exceed $250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

Important note on FAPIIS: An applicant, at its option, may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider any such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

Absent explicit statutory authorization or written delegation of authority to the contrary, the Assistant Attorney General will make all final award decisions and may take into account not only peer review ratings and BJA recommendations, but also other factors as indicated in this section.
