# Federal Fellowship Opportunity

at the  
National  
Counterterrorism  
Center

An exciting opportunity for a local, state, or tribal official to serve in a fellowship program on the Federal Coordinating Group, which coordinates terrorism information products for state, local, tribal, and private sector consumers

## Appointment to the Federal Coordinating Group

The official selected for the fellowship will receive a one-year appointment to the Federal Coordinating Group (FCG), housed within the National Counterterrorism Center (NCTC). The FCG coordinates the production and timely issuance of interagency products intended for distribution to state, local, and tribal officials and the private sector, including:

- Alerts, warnings, notifications, and updates of time-sensitive information related to terrorism threats to locations within the United States;
- Situational-awareness reporting regarding significant events or activities occurring at the international, national, state, and local levels; and
- Strategic and foundational assessments of terrorist risks and threats to the United States and related trend and trade craft information, including, for example, assessments of lessons learned from terrorist events or counterterrorism initiatives.

The FCG includes representatives from the U.S. Department of Homeland Security, Federal Bureau of Investigation (FBI), NCTC, U.S. Department of Defense, Central Intelligence Agency, National Security Agency, U.S. Department of State, and state and local organizations.

The Criminal Intelligence Coordinating Council, sponsored by U.S. Department of Justice's Global Justice Information Sharing Initiative, is charged with coordinating the nomination of one state, local, or tribal official to be assigned to the FCG. The official selected will be federalized for a one-year detail under an FBI fellowship program with lodging, per diem, and stipend provided. Salary will be borne by the official's agency. Interested officers must understand the time and dedication the assignment demands.
