

BODY CAMERAS

703.1.0 PURPOSE AND SCOPE

Body cameras are a valuable tool for promoting transparency in law enforcement by recording citizen contacts with police officers. The Spokane Police Department employs body cameras for the purpose of contemporaneously and objectively documenting information about the details of such contacts. Video footage produced by body cameras may be used as evidence in civil or criminal investigations, reviewed administratively for officer compliance with department policies, used as a tool in law enforcement training, or utilized as a reference in incident documentation.

POLICY

It is understood that this is the draft policy for the pilot body worn camera test phase. The pilot test phase will be from 09/01/2014 – 12/31/2014. At the conclusion of the pilot a comprehensive review will be conducted prior to full implementation. It is the policy of the Spokane Police Department that job related interactions between patrol officers and citizens shall be recorded by use of body worn cameras during contacts in which an incident number is generated or maybe generated.

703.1.1 DEFINITIONS

703.1.2 ACTIVATION OF THE BODY CAMERA

Unless an officer holds a legitimate belief that activating the body camera would be unsafe given the facts and circumstances, the body camera shall be activated. If a safety issue has prevented activation of the body camera, the officer shall document the details in an incident report and report it to the shift supervisor. At no time should officers jeopardize their safety in order to activate a body camera. It is understood that rapidly evolving and complicated situations may delay camera activation due to incident priority. Officers will document this situation in their incident report. During the ***pilot body worn camera test phase*** no discipline will be administered for forgetting to activate the camera.

703.1.3 COMMUNICATIONS WHICH DO NOT NEED TO BE RECORDED

It should be recognized that not all contacts between officers and citizens need to be recorded; officers should use discretion in determining whether it is appropriate to record.
